HAZMAT TRUCKING DEFINITION

HAZMAT trucking is the movement of highly hazardous materials such as nuclear wastes and flammable gasses. A hazardous material is anything that can potentially cause harm to humans, animals, or the environment. Such agents include:

- Explosives
- Poisons
- Gases
- Radioactive Materials
- Corrosive Materials
- Combustible or flammable solids or liquids
- Oxidizing Materials

WHO ARE HAZMAT TRUCK DRIVERS?

HAZMAT truck drivers transport hazardous materials from their pickup points to their final destinations. However, only a few drivers are fully trained in transporting toxic materials and have certified Hazmat endorsements. These trackers do more than just transport the material. They are also required to choose
