RE: Docket FD 36873, Support for the Proposed Union Pacific-Norfolk Southern Merger

Members of the Board:

I serve as General Chairperson of SMART Transportation Division General Committee GO887, representing approximately 1700, trainmen, switchmen, firemen and engineers employed by Union Pacific across the former SP Western Lines. I support approval of the proposed Union Pacific-Norfolk Southern merger. My 22-years of railroad experience and responsibility for enforcing our agreements give me the perspective to make this endorsement with confidence.

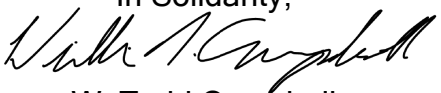
Connecting UP's western network with NS's eastern network offers an opportunity to reduce interchange delays and give shippers faster, seamless service. Better service can attract freight now moving by truck and create more work for the railroaders I represent. This proposed enhancement would create a significant increase of jobs across my territory, including LA Harbor, Port of Oakland, El Paso/Arizona (freight from Mexico) to name a few.

SMART-TD's Jobs for Life agreement is a central reason for my support. If this merger is approved and completed, covered members will gain career-long job, craft, and location protections. For railroaders who have faced furloughs and uncertainty, these enforceable commitments provide a stronger foundation for their careers.

Our General Committee is prepared to enforce the Jobs for Life agreement and other applicable agreements throughout the transition. We will hold the railroad accountable for honoring its commitments and protecting our members' rights. Our committee is committed to ensuring our members are protected so they can protect the work and keep the supply chain moving.

I ask the Board to approve the proposed merger with appropriate safeguards and oversight addressing employees, safety, service reliability, and competition. Approval, along with the SMART-TD agreement that accompanies it, offers the opportunity to grow freight traffic while giving railroaders the career protections their union negotiated.

In Solidarity,



W. Todd Campbell
