Public Record

Attached is a copy of NARPO's Email Sent file from November 3, 2019 to November 11, 2019 which shows that NARPO did in fact send the attorney for WMI, Robert Wimbish, a corrected copy of NARPO's comments on November 3, 2019. On November 13, 2019, NARPO received a STB filing where Mr. Wimbish accused NARPO of not sending him a copy of the corrected copy of NARPO's comments of November 3, 2019. I think Mr. Wimbish's problem lies in his email set up; not NARPO's neglect.

In MR. Wimbish's Surreply of November 13, 2019 besides accusing NARPO of not emailing him a copy of the corrected copy, he also takes the time to add some remarks about this abandonment. What Mr. Wimbish neglected to explain is why the consummation occurred months before the scam deeds WMI put forth to some of the abutting property owners. And also, why Michigan reversionary law didn't take effect on the date of consummation. Maybe Mr. Wimbish can file another Sur Reply and explain that.
