Environmental Impact Statement

Comment Form

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

STB Finance Docket No. 35087

Date: Aug 27, '08

Comments must be submitted by September 30, 2008.

(1) This will impact safety more, much more, than the report indicates. It will block ambulances serving Barrington residents for Good Shepherd Hospital. Over 800 school buses cross the tracks per day. The trains are within 600 feet of the High School.
(2) This will add major traffic stress, more than the DEIS indicates. It crosses all 3, not 1, major traffic arteries in Barrington, NW Hwy, Main St, and Hough St. As CN tries to coordinate its extensive schedule with Metra's schedule, residents will have the interference of the Metra trains when CN is not coming through, and vise-versa.
(3) This will negatively impact the businesses in town.
(4) The people of Barrington work hard to build the town and its character. That should be respected!
(5) Barrington should not need to bear the costs of these negative impacts.

YOUR INPUT IS IMPORTANT!
