Subject: Extension for Waybill Request WB19-31

Dear Director,

I am writing to request an extension to the confidential Waybill Request WB19-31.

As described in the original request, we are using these data to identify determinants of North Carolina corn basis. This is part of a project funded by the Corn Growers Association of North Carolina and the project has received funding for a second year - therefore the research utilizing these data is ongoing.

We are able to pay a reasonable amount if there are administrative fees associated with extending access to these data. Please do not hesitate to contact me if you have questions or require additional information.

Thank you for your assistance,
