Dear Alexander Duesenberry:

Please consider this email a request for an extension on our WB18-29 access to Waybill. We have multiple students using the data to write dissertations, Frank Wolak and I as well as Ken Boyer and I have on-going research, which require access to these data. There are significant time lags in using data for academic reasons that far exceed the time for which access is granted.

If there are any issues, please do not hesitate to contact me at the number below.

Sincerely,  
Wesley W. Wilson
