Re: Docket No. FD 35095, Alaska Railroad Corporation - Construction and Operation  
Exemption - A Rail Line Extension to Port MacKenzie, Alaska: Comments on  
Quarterly Report for the Fourth Quarter of 2020

Dear Mr. Lindamood:

In its November 17, 2011 decision granting the Alaska Railroad Corporation (ARRC) the authority to construct and operate the Port MacKenzie rail line extension, the Board imposed 100 mitigation measures on the project. Mitigation Measure #98 requires ARRC to submit quarterly reports to the Board's Office of Environmental Analysis (OEA) on the progress of, implementation of, and compliance with the Board-imposed mitigation measures. On February 1, 2021, ARRC submitted a report for the fourth quarter of 2020.

OEA has reviewed the quarterly report for October 1, 2020 through December 31, 2020 and has no comments.

If you have any questions, please contact Dave Navecky, OEA's Project Manager, at 202-245-0294.

Sincerely,

Danielle Gosselin  
Acting Director  
Office of Environmental Analysis
