Re: Docket No. FD 36312, Oakland Global Rail Enterprise — Request for Authority to Operate a Rail Line in Oakland, Cal.: Information Request No. 3

Dear Ms. Floyd:

Consistent with 40 C.F.R. § 1506.5(a), the Surface Transportation Board's (Board) Office of Environmental Analysis (OEA) requests additional information to assist in its environmental review for the above-referenced proceeding. Please provide the railroad trackage digital linework (in CADD and/or Microstation format) that was used to create the figure in Attachment 2, OAB/OHIT Rail Systems Architectural Drawing, of Oakland Global Rail Enterprise's (OGRE) October 28, 2019 response to OEA's Information Request No 1. This digital linework should include the 95,950 feet of track over which OGRE intends to request operating authority from the Board.

We look forward to receiving this information by Friday, November 15, 2019. Please submit your response to Dave Navecky of my staff at 395 E Street, SW, Washington, DC, 20423, david.navecky@stb.gov, and cc: Kevin Starnier of Skelly & Loy at kstarnier@skellyloy.com. Please feel free to contact Dave at 202-245-0294 if you have any questions regarding this request. Thank you for your assistance.

Sincerely,

Victoria Rutson
Director
Office of Environmental Analysis
