RE: STB Finance Docket No. 36500

CP-KCS Potential Combination

Up On Me Imports Inc hereby files this letter to express its concerns to the bid by CN to acquire KCS and re-iterate its support for the CP-KCS combination.

As expressed in our initial letter to the Board dated April 23, 2021 we support swift approval of the CP-KCS combination because of the significant benefits the combination would bring, including expanded markets and port options, improved service options, and invigorated transportation competition. This would allow our company to the Mexico factories. Less dependences of Asia Market ship by rail verses Ocean

By contrast, a CN acquisition of KCS would lead to a reduction in competition and deprive shippers of the many tangible benefits offered by the CP/KCS deal. Specifically, if CN were to acquire KCS,

NOT only will we be deprived of the benefits of the CP/KCS deal, but we will also suffer a reduction of competition in key areas by virtue of CN acquiring KCS.

From our perspective, the only combination involving KCS that is in the public interest is the one that CP has proposed. Unlike the CP/KCS combination, the acquisition of KCS by CN would result in harm to competition because the two railroads today serve many locations and shippers in common. Indeed, they operate parallel lines between Baton Rouge and New Orleans and Eastern Mississippi; they both serve grain and other shippers in large swaths of the Midwest and Southern United States; and they both reach the port of Mobile, Alabama. Even more fundamentally, between the Upper Midwest and Gulf Coast, a CN/KCS combination would reduce the number of independent routing options from four to three.

We expect a combined CPKC network to offer seamless, single-line service that will improve our transportation options and provide a better alternative to the options that already exist. A CN-KCS combination would limit competitive carrier options to markets and ports south of Kansas City.

Respectfully submitted,

Ron Hoyda CEO
