To Whom it may concern:

RE: Docket # FD 32684

Unita Basin Railroad

I'm sending this email in regards to the Uinta Basin Railroad project I am one of the business owners in downtown Duchesne, UT, business name Red Rock Extended Stay. I support this project 100%. We are a small lodging property located on Main Street in Duchesne, Utah and this project would greatly impact business, not only for us, but for of our neighboring businesses. Covid-19 really has impacted lodging and every business not only in Duchesne, but statewide. This would be such a great opportunity for our business to grow, keep our doors open, and provide services. The Duchesne community is a strong, hard working group of individuals, and if this project is approved, it will give a new light and hope for everyone to grow. I would like to see the project move forward and I support this,

Sincerely,

Sharon McDowell
