**TRACKAGE RIGHTS AGREEMENT  
BETWEEN RIVERSIDE CALIFORNIA AND DAGGETT CALIFORNIA**

**THIS TRACKAGE RIGHTS AGREEMENT**, (hereinafter called "**Agreement**") is entered into this 25<sup>th</sup> of June 2021, ("**the Effective Date**") by and between **BNSF Railway Company**, a Delaware corporation (hereinafter called "**BNSF**" or "**Owner**") and **Union Pacific Railroad Company**, a Delaware corporation (hereinafter called "**UP**" or "**User**"); and

**RECITALS:**

**WHEREAS**, BNSF is the owner and operator of certain railroad lines and tracks between MP 9 plus 1487.0 feet and MP 737 plus 2126.7 feet on the BNSF San Bernardino Subdivision between Riverside, California and Daggett, California ("**Joint Trackage**") as defined below; and

**WHEREAS**, UP has been operating over the Joint Trackage under an agreement effective February 1, 1916 ("**1916 Agreement**") which expired August 13, 2014 and UP now desires to continue utilizing trackage rights over the Joint Trackage; and

**WHEREAS**, UP desires to retain existing passenger service rights over the Joint Trackage and BNSF is unwilling to extend UP's existing passenger rights over the Joint Trackage in this new agreement; and

**WHEREAS**, UP and BNSF desire to move forward with this new agreement and address passenger rights in a separate agreement; and

**WHEREAS**, BNSF is willing to allow the continued use of UP trackage rights over the Joint Trackage subject to the terms and conditions of a new agreement covering freight traffic as set forth herein.

**NOW, THEREFORE**, in consideration of the mutual covenants, obligations and agreements set forth herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereby agree as follows:

**Section 1.     DEFINITIONS**

Any capitalized terms used in the body of this Agreement but not specifically defined herein shall have the meanings given to such terms in the general conditions (hereinafter called "**General Conditions**") set forth in **Exhibit "B"**, attached to and made a part of this Agreement.

**Section 2.     TRACKAGE SUBJECT TO AGREEMENT**

UP's trackage rights under this Agreement will be over the Joint Trackage shown on **Exhibit "A"**, attached hereto and made a part of this Agreement. The Joint Trackage shall include all of the track structure, including mainlines together with cross-overs, connections, switches, siding and passing tracks of Owner as described in this Agreement including necessary right-of-way

and all appurtenances, signals, communications, stations, passing tracks, sidings, spurs, and industrial tracks and all Changes in and/or Additions, including any Capacity Improvements, to said track structure now or in the future; provided, however these rights shall not include any trackage not accessible under Section 4.2 and General Conditions Section 2.4.

**Section 3.     GENERAL CONDITIONS, CONFLICTS BETWEEN PROVISIONS**

The trackage rights granted in this Agreement are subject to the terms and conditions herein and the General Conditions. In the event there is a conflict between the terms in the body of this Agreement and the General Conditions, then the terms contained in the body of this Agreement shall prevail.

**Section 4.     GRANT OF TRackage RIGHTS**

4.1 Subject to the terms and conditions contained herein, BNSF grants to UP the nonexclusive right to connect with and use the Joint Trackage. UP's use of the Joint Trackage shall be in common with BNSF and any other railroad company or companies that use or access the Joint Trackage, now or in the future (provided that such future admittance shall not materially interfere with the fair and reasonable exercise of the rights granted in this agreement).

4.2 The parties understand and agree that UP shall not have the right to:

- (a) Set out, pick up, store, load, or unload upon the main track of the Joint Trackage; or
- (b) Access or serve any BNSF Exclusive Use Facility now existing or hereafter located on or along the Joint Trackage; or
- (c) Permit or admit any third party to use all or any portion of the Joint Trackage, nor have the right to detour trains of any other railroad over or upon the Joint Trackage; or
- (d) Enter into or make a contract or agreement for the handling of UP Equipment over or upon the Joint Trackage, or any portion thereof, or the Equipment of any third party which in the normal course of business would not be considered the Equipment of UP provided, however, that the foregoing shall not prevent UP, pursuant to a run-through agreement with any other railroad, from using the locomotives of another railroad as its own under this Agreement; or
- (e) Provide any passenger service of any kind or handle or operate passenger trains on or along the Joint Trackage.

4.3 Notwithstanding the provisions of Section 4.2, the parties understand and agree that UP shall have the right to:

- (a) Access, passing tracks, sidings, spurs, and industrial tracks, including the right to transact business and handle freight traffic at, to, from, and over all stations, sidings, spurs, team tracks and industry tracks within the limits of the Joint Trackage (excluding any BNSF Exclusive Use Facilities); and
- (b) Switch industries now or hereinafter located along the Joint Trackage (excluding switching at any BNSF Exclusive Use Facilities); and
- (c) Access or serve any yard track(s) existing as of the Effective Date, excluding yard tracks at San Bernardino and Barstow, except as provided for in Section 4.4 below; and
- (d) Serve any customer facility now or hereinafter located along the Joint Trackage, including but not limited to customers on or along sidings, spurs, team tracks, and industrial tracks; and
- (e) Install and maintain solely for use of the parties AEI Readers, Repeaters, and/or other fixed communication equipment reasonably required for railroad operations, subject to Owner's review and approval, which will not be unreasonably withheld, provided the equipment and transmissions do not interfere with Owner's operations or telecommunications; and
- (f) Construct, operate, and maintain for User's sole use an exclusive communication and/or data line(s) upon the right of way comprised within the Joint Facilities; and
- (g) Register its own Freight Station Accounting Codes ("FSAC") along the Joint Trackage.

- 4.4
- (a) In the event UP local traffic on the Joint Trackage is no longer handled by BNSF in haulage service, then in lieu of UP performing its own terminal switching, BNSF shall, at BNSF's election, either: (i) provide such switching services to UP; or (ii) lease to UP sufficient trackage at Barstow or San Bernardino for UP to perform the making up or breaking up of UP's local trains that either originate or terminate at Barstow or San Bernardino at a mutually agreed cost. Any yard tracks being made available at either Barstow or San Bernardino associated with switching pursuant to this Section 4.4 shall only be for UP's local traffic originating or terminating on the Joint Trackage and for no other cars or traffic of any kind, with the exception of incidental usage required for UP's local traffic.
  - (b) For so long as certain UP local traffic continues to be handled by BNSF in haulage service, BNSF shall also continue to provide reciprocal switching for

local customer facilities along the Joint Trackage at Barstow and San Bernardino, provided UP shall compensate BNSF consistent with the terms under the Victorville Haulage Agreement dated March 21, 2002, as amended from time to time.

4.5 UP agrees to perform its operations (hereinafter called "**UP's Operations**") and handle its Equipment in a manner that will not unreasonably interfere with or impair the use of the Joint Trackage by BNSF or other parties.

In the event any applications, petitions or filings by BNSF are required for UP to obtain the necessary Government Approvals pursuant to the preceding sentence, then BNSF will cooperate with UP and undertake and diligently prosecute any applications, petitions or filings by BNSF at BNSF's expense.

8.2     BNSF shall have the right, but not the obligation, to review any UP applications, petitions, filings or requests for the Government Approvals described in this Section. UP shall provide BNSF with advance written copies of any such applications, petitions, filings or requests.

Such Changes in and/or Additions to the Joint Trackage shall become a part of the Joint Trackage or in the case of retirements shall be excluded from the Joint Trackage.

2.2 Unless otherwise mutually agreed to by the parties in writing, Owner shall, (i) keep and maintain the Joint Trackage on a consistent basis at no less than the track standard designated in the timetable in effect on the Application Date of the Agreement, including special instructions for the Joint Trackage as of the date of the Agreement, (ii) maintain at least the physical capacity of the Joint Trackage as of the Application Date of the Agreement (i.e., number of main tracks, support tracks, signal systems, rail weight, line clearances, etc.), (iii) keep and maintain any Capacity Improvements and Changes in and/or Additions to the Joint Trackage, and (iv) be responsible for construction of any Capacity Improvements and Changes in and/or Additions to the Joint Trackage, as shall be necessary to accommodate the traffic of Owner and User while maintaining existing service standards (including transit times) in effect on the Application Date of the Agreement. In the event that User desires that the Joint Trackage be improved to a condition in excess of the standard set forth in this Section 2.2, or desires that other Capacity Improvements or Changes in and/or Additions to be made to the Joint Trackage, Owner agrees to make such Changes in and/or Additions to the Joint Trackage if funded in advance by User. Thereafter, such Capacity

Improvement or Changes in and/or Additions to the Joint Trackage shall become part of the Joint Trackage and shall be maintained by Owner in such improved condition.

2.3 Owner shall have the exclusive right to perform all construction, operation, maintenance, repair and renewal of the Joint Trackage. Owner shall be bound to use reasonable and customary care, skill, and diligence in the construction, operation, maintenance, repair and renewal of the Joint Trackage and in managing the same. Owner shall make its best effort to ensure that User is given the same advance notice of maintenance plans and schedules as is provided to Owner's personnel.

2.7 If this Agreement is terminated pursuant to the terms and conditions set forth herein, User will not be entitled to any refunds of amounts paid by Owner for Capacity Improvements, Changes in and/or Additions to the Joint Trackage.

2.8 The trackage rights granted hereunder shall give User access to and joint use of the Joint Trackage equal to that of Owner. Passenger trains shall in all cases have preference over freight trains. The management, operation (including dispatching) and maintenance of the Joint Trackage shall, at all times, be under the exclusive direction and control of Owner. The movement of Equipment over and along the Joint Trackage shall at all times be subject to the exclusive direction and control of Owner's authorized representatives and in accordance with such reasonable operating rules as Owner shall from time to time institute, but in the management, operation (including dispatching) and maintenance of the Joint Trackage, Owner and User shall be treated equally. User shall, at User's sole cost and expense, obtain, install and maintain necessary communication equipment to allow User's Equipment to communicate with Owner's dispatching and signaling facilities the same as Owner's trains so utilize. Owner shall consult with User prior to notice of the adoption or implementation of new communication or signaling systems to be employed on the Joint Trackage which have not theretofore been generally adopted in the railroad industry.

2.9 A Joint Service Committee ("Committee"), comprised of the chief transportation officers of Owner and User (or their designees) shall be established, and shall be responsible for establishing rules or standards as appropriate to ensure equitable and non-discriminatory treatment, appropriate maintenance and efficient joint use of the Joint Trackage. The Committee shall meet when any party serves upon the other party thirty (30) days' written notice of its desire to meet to review the overall performance of Equipment on the Joint Trackage, conflicts, if any, experienced between Equipment of Owner and Equipment of User, grievances over the handling of particular Equipment or operational events, maintenance of the Joint Trackage, ways in which future conflicts may be minimized, ways of improving operations and maintenance of the Joint Trackage and such other relevant matters as the Committee may decide to consider. The Committee may issue standards or rules to prevent unnecessary interference or impairment of use of the Joint Trackage by

either party or otherwise ensure fair and equal treatment as between Owner and User. Either party may request a special meeting of the Committee on reasonable notice to the other. Informal telephonic conferences shall be held by the Committee where appropriate to address immediate concerns of either party. It is expected that the work on the Committee shall be undertaken in a spirit of mutual cooperation consistent with the principles expressed in the Agreement.

2.10 If the use of the Joint Trackage shall at any time be interrupted or traffic thereon or thereover be delayed for any cause, neither party shall have or make any claim against the other for loss, damage or expense caused by or resulting solely from such interruption or delay.

2.11 Owner may from time to time, on a temporary basis, provide any track or tracks on the Joint Trackage other than those delineated in Exhibit A to the Agreement for use by User provided there shall at all times be afforded User a continuous route of equal utility for the operations of its Equipment between the termini of the Joint Trackage. When such tracks which are not part of the Joint Trackage are used as provided herein, the Agreement shall govern for the purposes of direction and control and liability as if all movement had been made over the Joint Trackage.

2.12 Each party shall be responsible for furnishing, at its sole cost and expense, all labor, fuel, train, and other supplies necessary for the operation of its own Equipment over the Joint Trackage. In the event a party does furnish such labor, fuel, train and other supplies to another party, then the receiving party shall promptly, upon receipt of billing therefor, reimburse the furnishing party for its reasonable costs thereof, including customary additives.

2.13 User shall be responsible for the reporting and payment of any mileage, per diem, use or rental charges accruing on Equipment in User's account on the Joint Trackage. Except as may be specifically provided for in the Agreement, nothing contained herein is intended to change practices with respect to interchange of traffic between the parties or with other carriers on or along the Joint Trackage.

2.14 Except as otherwise may be provided in the Agreement, User shall operate its Equipment over the Joint Trackage with its own employees, but before said employees are assigned or permitted to operate Equipment over the Joint Trackage as herein provided, and from time to time thereafter as and when reasonably requested by Owner, they shall be required to pass the applicable rules examinations required by Owner of its own employees. Owner shall delegate to specified User's officers the conduct of such examinations in the event User chooses to conduct such examinations. If an Owner officer conducts such examinations of employees of User, User shall pay Owner a reasonable fee for each employee so examined, such fee to be mutually agreed upon by the parties from time to time in a separate agreement. Notwithstanding any such examination, User shall be responsible for ensuring that its employees are qualified and have taken all such rules examinations. Upon request of User, Owner shall qualify one or more of User's supervisory officers as pilots and such supervisory officer or officers so qualified shall qualify employees of User engaged in or connected with User's operations on or along the Joint Trackage.

At User's request, Owner shall furnish a pilot or pilots, at the expense of User, to assist in operating trains of User over the Joint Trackage. Should Owner ever require a pilot on User's Equipment after the initial start-up period on a frequent basis, that matter shall be referred to the Committee for resolution.

2.15 If any employee of User shall neglect, refuse or fail to abide by Owner's rules, instructions and restrictions governing the operation on, over or along the Joint Trackage or Legal Requirements, such employee shall, upon written request of Owner, be prohibited by User from working on, over or along the Joint Trackage. If either party shall deem it necessary to hold a formal investigation to establish such neglect, refusal or failure on the part of any employee of User, then upon such notice presented in writing, Owner and User shall promptly hold a joint investigation in which the parties concerned shall participate and bear the expense for their respective officers, counsel, witnesses and employees participating in such investigation. Notice of such investigations to User's employees shall be given by User's officers, and such investigations shall be conducted in accordance with the terms and conditions of schedule or labor agreements between User and its employees. If, in the judgment of Owner, the result of such investigation warrants, such employee shall, upon written request by Owner, be withdrawn by User from service on, over or along the Joint Trackage, and User shall release and indemnify Owner from and against any and all claims and expenses arising from such withdrawal.

If the disciplinary action is appealed by an employee of User to the National Railroad Adjustment Board or other tribunal lawfully created to adjudicate such cases, and if the decision of such board or tribunal sustains the employee's position, such employee shall not thereafter be barred from service on, over or along the Joint Trackage by reason of such disciplinary action.

2.16 If any Equipment of User is bad ordered enroute on the Joint Trackage and (i) it is necessary that it be set out, and (ii) only light repairs to the Equipment are required, then such bad ordered Equipment shall be promptly repaired and thereafter, be promptly removed from the Joint Trackage by User. Owner may, upon request of User and at User's sole cost and expense, furnish the required labor and material and perform light repairs to make such bad ordered Equipment safe for movement. The employees and Equipment of Owner while in any manner so engaged or while enroute to or returning to Owner's terminal from such an assignment shall be considered Sole Employees (as hereinafter defined) of User and Sole Property (as hereinafter defined) of User. However, should Owner's employees after repairing such bad ordered Equipment for User move directly to perform service for Owner's benefit rather than returning to Owner's terminal, then User's exclusive time and liability will end when Owner's employees depart for work to be performed for Owner's benefit. In the case of such repairs by Owner to freight cars in User's account, billing therefor shall be in accordance with the Field and Office Manuals of the Interchange Rules, adopted by the AAR (hereinafter collectively called "Interchange Rules"), in effect on the date of performance of the repairs. Owner shall then prepare and submit billing directly to and collect from the car owner for car owner responsibility items as determined under said Interchange Rules, and Owner shall prepare and submit billing directly to and collect from User for handling line responsibility items as determined under said Interchange Rules. Owner

shall also submit billing to and collect from User any charges for repair to freight cars that are User's car owner responsibility items as determined under said Interchange Rules, should said car owner refuse or otherwise fail to make payment therefor. Repairs to locomotives shall be billed as provided for in Section 3 of these General Conditions.

2.17 If Equipment of User shall become derailed, wrecked, or otherwise disabled while upon the Joint Trackage, it shall be re-rail or cleared by Owner, except that employees of User may re-rail User's derailed Equipment on the Joint Trackage whenever use of motorized on or off track equipment is not required; however, in any such case, employees of User shall consult with and be governed by the directions of Owner. Owner reserves the right to re-rail or clear Equipment of User when, in the judgment of Owner, Owner deems it advisable to do so to minimize delays and interruptions to train movement. The reasonable costs and expenses of rerailing or clearing derailed, wrecked, or disabled Equipment shall be borne by the parties in accordance with Section 5 of these General Conditions. Work and services performed under this Section shall be billed in accordance with Section 3 of these General Conditions.

2.18 In the event Equipment of User shall be forced to stop on the Joint Trackage, and such stoppage is due to insufficient hours of service remaining among User's employees, or due to mechanical failure of User's Equipment (other than bad ordered Equipment subject to light repairs pursuant to Section 2.16), or to any other cause not resulting from an accident or derailment (including the failure of User to promptly repair and clear bad ordered Equipment pursuant to Section 2.16), and such Equipment is unable to proceed, or if a train of User fails to maintain the speed required by Owner on the Joint Trackage, or if, in emergencies, disabled Equipment is set out of User's trains on the Joint Trackage, either party shall have the option to furnish Helper Service or such other assistance (including but not limited to the right to re-crew User's train) as may be necessary to haul, help or push such Equipment, or to properly move the disabled Equipment off the Joint Trackage subject to reasonable notice, allowing User the option to provide its own Helper Service so long as it does not create unreasonable delay that impacts Owner operations. The reasonable costs and expenses of rendering such assistance shall be borne by User. Work and services provided under this Section shall be billed in accordance with Section 3 of these General Conditions.

2.19 User shall pay to Owner reasonable expenses incurred by Owner in the issuance of timetables made necessary solely by changes in the running time of trains of User over the Joint Trackage. If changes in running time of trains of Owner or third parties, as well as those of User, require the issuance of timetables, then User shall pay to Owner that proportion of the expenses incurred that one bears to the total number of parties changing the running time of their trains. If changes in running time of trains of Owner or third parties, but not those of User, require the issuance of timetables, then User shall not be required to pay a proportion of the expenses incurred in connection therewith.

2.20 User, at Owner's request, shall be responsible for reporting to Owner the statistical data called for in the Agreement, which may include, but is not limited to, the number and type of Equipment and GTMs operated on the Joint Trackage.

### **Section 3. BILLING**

3.1 Billing shall be accomplished on the basis of data contained in a billing form mutually agreed to between the parties. Such billing forms shall contain sufficient detail to permit computation of payments to be made hereunder. Billing shall be prepared according to the rules, additives, and equipment rental rates as published by the billing party. User shall pay to Owner at the Office of the Treasurer of Owner, or at such other location as Owner may from time to time designate in writing, all the compensation and charges of every name and nature which in and by the Agreement User is required to pay in lawful money of the United States within thirty (30) days after the rendition of bills therefor. Bills shall contain a statement of the amount due on account of the expenses incurred, properties and facilities provided and services rendered during the billing period.

3.2 Errors or disputed items in any bill shall not be deemed a valid excuse for delaying payment, but shall be paid subject to subsequent adjustment; provided, no exception to any bill shall be honored, recognized or considered if filed after the expiration of three (3) years from the last day of the calendar month during which the bill is rendered and no bill shall be rendered later than three (3) years (i) after the last day of the calendar month in which the expense covered thereby is incurred, or (ii) in the case of claims disputed as to amount or liability, after the amount is settled and/or the liability is established. This provision shall not limit the retroactive adjustment of billing made pursuant to exception taken to original accounting by or under authority of the STB or retroactive adjustment of wage rates and settlement of wage claims.

3.3 So much of the books, accounts and records of each party hereto as are related to the subject matter of this Agreement shall at all reasonable times be open to inspection by the authorized representatives and agents of the parties hereto. All books, accounts, and records shall be maintained to furnish readily full information for each item in accordance with any applicable laws or regulations.

3.4 Should any payment become payable by Owner to User under the Agreement, the provisions of Sections 3.1 and 3.2 of these General Conditions shall apply with User as the billing party and Owner as the paying party.

3.5 Either party hereto may assign any receivables due it under this Agreement; provided, however, that such assignments shall not relieve the assignor of any rights or obligations under the Agreement.

#### Section 4. COMPLIANCE

4.1 With respect to operation of Equipment on the Joint Trackage, each party shall comply with all applicable federal, state and local laws, rules, regulations, orders, decisions and ordinances ("Standards"), and if any failure on the part of any party to so comply shall result in a fine, penalty, cost or charge being imposed or assessed on or against another party, such other party shall give prompt notice to the failing party and the failing party shall promptly reimburse and indemnify the other party for such fine, penalty, cost or charge and all expenses and reasonable attorneys' fees incurred in connection therewith, and shall upon request of the other party defend such action free of cost, charge and expense to the other party.

4.2 User agrees to comply fully with all applicable Standards concerning Hazardous Materials. Except with Owner's prior consent, User covenants that it shall not treat or dispose of Hazardous Materials on the Joint Trackage. User further agrees to furnish Owner (if requested) with proof, satisfactory to Owner that User is in such compliance.

In the event any accident, bad ordered Equipment, derailment, vandalism or wreck (for purposes of this Section 4.2 and 4.3 hereinafter called collectively "Derailment") involving Equipment of or a train operated by User carrying Hazardous Materials shall occur on any segment of the Joint Trackage, any report required by federal, state or local authorities shall be the responsibility of User. User shall also advise the owner/shipper of the Hazardous Materials involved in the Derailment, and Owner, immediately.

In the event of a Derailment, Owner shall assume responsibility for cleaning up any release of Hazardous Materials from User's Equipment in accordance with all federal, state, or local regulatory requirements. User may have representatives at the scene of the Derailment to observe and provide information and recommendations concerning the characteristics of Hazardous Materials release and the cleanup effort. Such costs shall be borne in accordance with Section 5 of these General Conditions. If a Hazardous Materials release caused by a derailment involving Equipment of User, or on a train operated by User, results in contamination of real property or water on the Joint Trackage or on real property or water adjacent to the Joint Trackage (whether such real property or water is owned by Owner or a third party), Owner shall assume responsibility for emergency cleanup conducted to prevent further damage. User shall be responsible for performing cleanup efforts thereafter. Any costs associated with cleaning up real property or water on or adjacent to the Joint Trackage contaminated by Hazardous Materials shall be borne in accordance with Section 5 of these General Conditions.

If Hazardous Materials must be transferred to undamaged Equipment or trucks as a result of a release caused by a derailment involving Equipment of User, or on a train operated by User, User shall perform the transfer; PROVIDED, HOWEVER, that if the Hazardous Materials are in damaged Equipment that is blocking the Joint Trackage, Owner, at its option, may transfer the Hazardous Materials with any costs associated with such transfer borne in accordance with Section

5 of these General Conditions. Transfers of Hazardous Materials by User shall only be conducted after being authorized by Owner.

4.3 The total cost of clearing a Derailment, cleaning up any Hazardous Materials released during such Derailment, and/or repairing the Joint Trackage or any other property damaged thereby shall be borne by the party or parties liable therefor in accordance with Section 5 of these General Conditions.

4.4 In the event of release of Hazardous Materials caused by faulty Equipment or third parties, cleanup will be conducted as stated in Section 4 of these General Conditions.

**Section 5. LIABILITY**

**Section 6.     ARBITRATION**

## **Section 7.     ABANDONMENT**

7.1     Owner and User shall, at their respective cost and expense, initiate by appropriate application or petition and thereafter diligently prosecute proceedings for the procurement of all necessary consent, approval or authority from any governmental agency for the sanction of the Agreement and the operations to be carried on or conducted by User thereunder. User and Owner agree to cooperate fully to procure all such necessary consent, approval or authority.

7.2     In the event Owner shall be involuntarily dispossessed, including by threat of condemnation by competent public authority, of the right to operate upon and/or maintain any portion of its Joint Trackage and Owner fails or declines to replace said Joint Trackage, Owner shall have no obligation hereunder to provide tracks in replacement of such Joint Trackage for User's use, and User shall have and shall make no claim of any kind, legal or otherwise, against Owner for failure to provide such Joint Trackage for User's use.

7.3     To the extent that Owner may lawfully do so, Owner reserves to itself the exclusive right, exercisable at any time during the life of the Agreement without concurrence of User, to elect to abandon all or any part of the Joint Trackage by giving six (6) months' prior written notice to User of its intention so to do ("**Notice of Abandonment**").

Owner shall, concurrent with its Notice of Abandonment, if legally able to do so, give to User the option to purchase the part or parts of the Joint Trackage thereof to be abandoned at the Net Liquidation Value thereof, on the date of said notice. "Net Liquidation Value" shall mean fair market value of land and salvage value of track components and other facilities less estimated cost of removal. User shall have three (3) months from the date of receipt of Owner's notice to exercise its option and shall evidence the exercise of its option by giving Owner written notice thereof. Thereafter User shall immediately make appropriate application to secure all necessary governmental authority for such transaction. Within thirty (30) days following the effective date of

all requisite governmental approval of the transaction, User shall pay to Owner the amount of money required to purchase said Joint Trackage to be abandoned at the aforesaid Net Liquidation Value. Upon the receipt of payment of such sum, the Agreement shall terminate as to the part of the Joint Trackage so purchased by User. Contemporaneously with such payment, by instrument or instruments, Owner shall convey and assign by good and sufficient quit claim deed or deeds, bills of sale or other instruments, all of Owner's right, title, interest and equity, in and to the Joint Trackage so purchased. Owner agrees that it shall promptly take all necessary action to obtain from the trustees of its mortgages all releases or satisfactions covering the same and shall deliver to User such instruments.

If User fails to exercise the option herein granted within the time and in the manner above specified, Owner may forthwith proceed free of all obligation to User to abandon the portion of Joint Trackage or make appropriate application, if necessary, to secure all necessary governmental authority for such abandonment. User agrees that at such time it shall concurrently make application for all necessary governmental authority for abandonment of its right to operate over such Joint Trackage. The Agreement shall terminate as to the section of Joint Trackage so abandoned upon the effective date of such approval by governmental authority.

7.4 Owner and User each shall be responsible for and shall bear labor claims, and employee protection payable to, its own respective employees (and employees of its respective affiliated companies) including any amounts that either Owner or User may be required to pay to its own respective employees pursuant to labor protective conditions imposed by the STB.

#### **Section 8. CATASTROPHIC EXPENSE**

#### **Section 9. ASSIGNMENT**

Except as provided in Section 3.5 and in the sentence immediately following, the Agreement and any rights granted hereunder may not be assigned in whole or in part by Owner or User without the prior written consent of the other. The Agreement may be assigned by Owner or User without the prior written consent of the other only (i) as a result of a merger, corporate reorganization, consolidation, change of control or sale of substantially all of its assets, or (ii) to an affiliate of the assigning party where the term "affiliate" means a corporation, partnership or other entity controlled, controlling or under common control with the assigning party. In the event of an authorized assignment, the Agreement and the operating rights hereunder shall be binding upon the successors and assigns of the parties.

## **Section 10. DEFAULT**

10.1 Notwithstanding the provisions of Section 4 of these General Conditions, either party hereto claiming a default of any of the provisions of the Agreement (including these General Conditions) shall furnish notice and written demand to the other party for performance or compliance with the covenant or condition of the Agreement claimed to be in default, which notice shall specify wherein and in what respect such default is claimed to exist and shall specify the particular Section or Sections of the Agreement under which such claim of default is made.

10.2 If the default shall continue for an additional period of thirty (30) days after receipt of such written notice and demand, and such default has not been remedied within said thirty (30) day period, or reasonable steps have not been nor continue to be taken to remedy a failure or default which cannot reasonably be remedied within said thirty (30) day period, either party shall resort to binding arbitration provided that the arbitrator shall not have the authority to amend, modify or terminate the Agreement.

10.3 Failure of a party to claim a default shall not constitute a waiver of such default. Either party hereto entitled to claim default may waive any such default, but no action by such party in waiving such default shall extend to or be taken to effect any subsequent defaults or impair the rights of either party hereto resulting therefrom.

## **Section 11. OTHER CONSIDERATIONS**

11.1 The Agreement and each and every provision hereof is for the exclusive benefit of the parties hereto and not for the benefit of any third party. Nothing herein contained shall be taken as creating or increasing any right in any third person to recover by way of damages or otherwise against any of the parties hereto.

11.2 If any covenant or provision of the Agreement not material to the right of User to use the Joint Trackage shall be adjudged void, such adjudication shall not affect the validity, obligation or performance of any other covenant or provision which is in itself valid. No controversy concerning any covenant or provision shall delay the performance of any other covenant or provision. Should any covenant or provision of the Agreement be adjudged void, the parties shall make such other arrangements as will affect the purposes and intent of the Agreement.

11.3 All section headings are inserted for convenience only and shall not affect any construction or interpretation of the Agreement.

11.4 Reference to any agency or other organization shall include any successor agency or organization, and reference to any index or methodology (e.g., RCAF-U, URCS, etc.), if such index or methodology ceases to exist or is no longer available, shall include any substantially similar

index or methodology selected by the parties or, if the parties fail to agree on such, one determined by binding arbitration under Section 6 of these General Conditions.

11.5 The terms of this Agreement have been arrived after considerable arm's length negotiation and mutual review of the parties, and the parties agree that none of the provisions herein shall be deemed or presumed to be construed against either party, regardless of which party drafted all or part of the terms of this Agreement.

11.6 The terms of that certain Letter Agreement between the parties dated December 9, 2010 (as amended and supplemented from time to time), concerning construction of certain terms and provisions of the parties' Merger Settlement Agreements shall apply to this Agreement, including this Exhibit B.
