Subject: Fwd: Uinta Basin Railway - Cumulative Impact Analysis
Date: Monday, January 13, 2020 10:40:35 AM

EI-31848

Merin:

Duchesne County Commission Chair, Greg Todd, asked me to reply to your email requesting our review of the list of cumulative plans and projects for our area.

I don't see anything that needs to be removed from the list. Here are a few projects that may need to be added:

- US Bureau of Reclamation, Provo, UT - Carly Smith [csmith@usbr.gov] - working on a Programmatic Agreement addressing the adverse effects of projects that impact historic irrigation infrastructure - such as piping of historic canals
- State of Utah Resource Management Plan (contact Redge Johnson or Brianne Emery at Public Lands Policy Coordination Office [PLPCO])
- State of Utah petition for state management of inventoried roadless areas (contact Public Lands Policy Coordination Office [PLPCO])
- Uintah Basin Association of Governments (435-722-4518) - Community Impact Board project list - Kevin Yack
- Uintah Basin Association of Governments - Consolidated Plan - Kevin Yack or Will Wright
- Duchesne County (Emergency Management Office) (435-738-1226) Hazard Mitigation Plan
- Duchesne County - (Emergency Management Office and Public Works Dept.) Strawberry River Reclamation Project

I will be having further conversations with the Commission later and will transmit any additional comments within the two week period.

Please contact me with any questions.
