RE: Gulf Coast to New Orleans Commuter Rail Service Public Comment
Docket FD 36496

ENTERED
Office of Proceedings
February 3, 2022
Part of
Public Record

Honorable members of the Surface Transportation Board,

I am filing this public comment in support of commuter rail service between the Gulf Coast and New Orleans, LA – specifically, commuter rail service between the Mississippi Gulf Coast and New Orleans. I continue to be amazed at the lack of commuter rail service in the United States. Congestion on the automobile interstates is significant and adding commuter rail service to support regional transportation in the Greater New Orleans area is the right decision for the citizens of this region and is a step in the right direction for adding and improving commuter rail service in the United States.

Respectfully

William L Sones Jr
