Ryan,

This is to confirm receipt of your request for a comment period extension and to let you know that my office is currently considering the request. I also wanted to follow up on a question you had regarding the status of the Seven County Infrastructure Coalition's petition or application for construction and operation authority. To date, the Coalition has not filed either a petition or an application. When we receive such a filing, it will be posted on the Board's website at www.stb.gov. Thank you as always for your continued participation in the Board's environmental review process.

Best,
Josh
