Subject: RE: seeking document related to Uinta Basin Railroad
Attachments: EI_31239.pdf

Hi Deeda,

That document was prepared by Forest Service and sent to us just prior to the release of the Final EIS. I've attached a .pdf of the report, which is also now on the Board's website as incoming environmental correspondence. Here is the permanent link: https://dcms-external.s3.amazonaws.com/DCMS_External_PROD/1630327427449/EI_31239.pdf.

I hope this is useful. Please let me know if you have any additional questions.

Best,
Josh

Subject: seeking document related to Uinta Basin Railroad

Hi Joshua, we found a reference to this document in the EIS materials for the Uinta Basin Railway - but have been unable to locate the document itself : "U.S. Forest Service (Forest Service). 2021. Uintah Railroad Inventoried Roadless Area Report. Prepared by Ryan Buerkle, Recreation, Cultural Resources, and Lands Staff Officer. Prepared for Ashley National Forest. July 22, 2021."

Can you help us? Do you know if this is included in the materials on the EIS website - or somewhere else?

Thanks very much,
Deeda
