Subject: RE: Follow-up Road Crossing, Bridges, Culverts questions

Thank you, Amanda. As you know, we have been eagerly awaiting final information related to the proposed bridges and other crossings since November of last year. We look forward to getting these last few clarifications addressed so that we can move forward with our analysis of potential impacts to water resources.

Best,
Josh

Josh,

Thank you for following up. We have coordinated with HDR on this and hope to submit the responses to Brent Read's requests for clarification by tomorrow.

Best,
Amanda

Amanda,

I wanted to follow up on Brent Read's request for clarification regarding the GIS data that the Coalition submitted in response to Information Request #5 (see below). This information is needed in order for us to move forward with conducting our review of potential impacts to water resources. Thanks for your help—please feel free to follow up with me with any questions or concerns.

Best,
Josh

Brent,

We have received your follow-up questions and will get back to you with our responses soon.

Thank you,
Amanda

Hi Amanda,

Thanks again to everyone for the updated data. I have a few more questions about specific locations along the routes, and have attached those as a word document. Some of the questions reference the tables you provided recently in “Appendix 1” and “Appendix 2”, so I have reattached them for ease of access. I think these should be pretty straight forward to answer, but let me know if you need any clarification.
