Feminists are trying to destroy a sex hierarchy, a race hierarchy, an economic hierarchy, in which women are hurt, are disempowered, and in which society celebrates cruelty over us and refuses us the integrity of our own bodies and the dignity of our own lives.

A political resistance goes on day and night, under cover and over ground, where people can see it and where people can't. It is passed from generation to generation. It is taught. It is encouraged. It is celebrated. It is smart. It is savvy. It is committed. And someday it will win. It will win.
