Subject: RE: Request for extension of time to review the DEIS for the Uinta Basin Railway

Hi Sarah,

I apologize for not replying right away, but I did want to confirm that I received your request for a comment period extension for the Uinta Basin Railway Draft EIS. Also, I was sorry to hear that Ryan has left the Center for Biological Diversity. He and I talked many times about this proposed project and I thought he did a great job with his organizing efforts. I hope that you're doing well and staying safe and healthy. I will let you know as soon as I can about any decision on the extension request.

Best,
Josh

Subject: Request for extension of time to review the DEIS for the Uinta Basin Railway

Hello Mr. Wayland,

I have mailed the attached letter and also submitted it through the online EIS portal, but I figured that it might get to you sooner if I just emailed it as well. I had your email on hand from Ryan Beam, who I often collaborated with before he left his position at the Center for Biological Diversity.

Please consider our request for an extension on the review period for the DEIS on the Uinta Basin Railway. It would be very helpful for all of us to have some extra time to review the extensive documents.

Hope this finds you well,

Sarah Stock
