Subject: RE: Revised T&E Survey Methodology

Kevin,

This is to confirm that we've reviewed the survey methods and have no further comments. These methods are consistent with what we've discussed as the next step for gathering information about suitable habitat for T&E species. As you know, it is important for the Board to carefully consider all alternatives and to have comparable information for each alternative—I appreciate that you've revised the survey methods to reflect this. Please keep me updated on the progress of the fieldwork as you move forward with it.

Thanks,
Josh

Subject: Revised T&E Survey Methodology

Josh and Debbie,

Attached is the revised T&E survey methodology for your review. We will also be submitting the Goshawk survey methodology to you shortly.

Kevin
