I realized just now that the file size for the appendices has likely put the total file size over the email limits for most of you, so it wasn't delivered. We are working on a way to get this to you using another method this afternoon. Sorry for any confusion or delays here.

Subject: Uinta Basin Railway Project Draft Programmatic Agreement

Dear Consulting Party,

As we have discussed during our Consulting Party teleconferences over the past months, we have been working on the draft Section 106 Programmatic Agreement (PA) for the Uinta Basin Railway project. I have attached the draft of the PA for your review and look forward to discussing it with you over the coming weeks. Your input is valuable and will help make the PA as strong and effective as possible. Please send your comments to me by email and copy Mikenna Wolff of ICF (Mikenna.Wolff@icf.com) by Monday, September 21st.

To simplify your review, I have provided the text of the PA in Word format. To the greatest extent possible, please offer your comments in the form of tracked changes in the document. You may also wish to offer comments in an email. I have also provided the PA appendices in .pdf format.

Our regularly scheduled Consulting Party Teleconference is next week, Wednesday, August 26. We will structure this month's teleconference to provide a forum for you to share your initial comments and questions.

After September 21st, we will consider your comments as we revise the PA before including it as an appendix to the draft Environmental Impact Statement. You will have another opportunity to comment on the PA during the EIS public comment period.

Please feel free to email or call me if you have questions or concerns. I look forward to your input on this important document.

Thank you for your ongoing participation in Section 106 consultation. Stay safe.
