Re: Docket No. FD 35095, Alaska Railroad Corporation - Construction and Operation
Exemption - A Rail Line Extension to Port MacKenzie, Alaska: Comments on
Quarterly Report for the First Quarter of 2021

Dear Mr. Lindamood:

In its November 17, 2011 decision granting the Alaska Railroad Corporation (ARRC) the authority to construct and operate the Port MacKenzie rail line extension, the Board imposed 100 mitigation measures on the project. Mitigation Measure #98 requires ARRC to submit quarterly reports to the Board's Office of Environmental Analysis (OEA) on the progress of, implementation of, and compliance with the Board-imposed mitigation measures. On April 26, 2021, ARRC submitted a report for the first quarter of 2021.

OEA has reviewed the quarterly report for January 1, 2021 through March 31, 2021 and has no comments.

If you have any questions, please contact Dave Navecky, OEA's Project Manager, at 202-245-0294.

Sincerely,

Danielle Gosselin
Acting Director
Office of Environmental Analysis
