Re: EP 770-1, *Urgent Issues in Freight Rail Service—Railroad Reporting*

Dear Ms. Brown:

Attached please find Canadian Pacific's submission of its Week One US performance data per the Board's Decision of May 5, 2022 (served May 6, 2022).

Please note with respect to data item no. 5, Spot and Pull, we calculated the data by counting the number of cars that were spotted/pulled for which there was a planned spot/pull within the same week, and divided that value by the total number of cars planned to spot/pull within the week. The "plan" is the Local Operating Plan which describes weekly services planned for each customer.

With respect to data item no. 7i, terminal dwell, the definition of week we used is Saturday – Sunday, as that is how the data is kept. We hope to re-write the necessary data interface and report this data point next week using the requested Saturday – Friday definition of a week. Thank you.

Sincerely,

/s/ Charles W. Webster
