Railway-Construction, Acquisition, and Operation Exemption-in
Wilmington and Woburn, Massachusetts
FD 34797 Sub-Docket 1
*Further Status Report of Town of Wilmington***

Dear Ms. Brown:

On behalf of the Town of Wilmington (“Wilmington”), we submit this further status report pursuant to the Board’s Decision dated April 5, 2019 and amended October 24, 2019, requiring the parties to submit status reports by November 8, 2019 and every 90 days thereafter. This report follows our report of May 5, 2022.

The parties’ previous reports summarized initial discussions between Wilmington and WWI/GFI concerning a conceptual alternative to the project that is the subject of the above-noted proceeding which has been suspended. The pace and timing of WWI’s engineering and planning of a potential alternative redevelopment project have depended upon the development and approval of remedial options for clean-up of the Olin Site by USEPA and Olin Corporation and the decision-making of WWI and NET.

As the parties later reported, USEPA released its Record of Decision on April 1, 2021. Counsel for NET/WWI provided your office with access to information concerning the ROD and the timeline for related next steps. EPA issued interim or final remedial plans for various operating units of the Superfund Site and related activities; some studies and reports have been in process since last spring and remain on-going. EPA is negotiating a Consent Agreement, after which remedial design activities may be undertaken.

As also reported, representatives of WWI/GFI met with certain Wilmington officials in July 2021 to address aspects of WWI’s conceptual proposal for developing the Olin Site in light of the ROD. In mid-September, WWI/GFI representatives met with other Town officials to discuss a conceptual project design. Those officials provided feedback concerning various

matters including wetlands, fire access, site circulation, and implications of construction on future clean-up activities. The proponents continue to develop design responses to some of those concerns including traffic and stormwater management. At a January 2022 meeting, WWI indicated an intention to incorporate site remediation engineering into a project design so as to obviate or minimize interference with on-going site cleanup processes. However, details for implementing such engineering also have not yet been provided.

The deadline for Olin to submit to EPA the finalized treatability study for on-site aquifer - the study referenced in WWI's current status report – is February 17, 2023. Like WWI, we understand that Olin continues to negotiate the terms of a final Consent Agreement and that remedial actions will commence once that is approved and lodged in federal court. (We also note incidentally that Wilmington's environmental consultants have submitted comments on a protocol proposed by Olin's consultants to access the Maple Meadow Brook wetland to monitor and modify existing sampling gauges located within that resource area.)

There have not been any further discussions with WWI about these matter but, as before, Wilmington is open to reviewing updated design plans and other available information concerning a possible development project, for which WWI/GFI ultimately would need to seek permits from relevant Town boards.

We will continue to provide you with status reports while this proceeding remains in abeyance. Please let us know if you have any questions concerning this report.

Very truly yours,

/s/ Daniel R. Deutsch

CERTIFICATE OF SERVICE

I, Daniel R. Deutsch, hereby certify that a copy of the foregoing Status Report on behalf of the Town of Wilmington dated August 4, 2022, was sent via first-class mail to the following parties of record.

Steven C. Armbrust
CSX Transportation, Inc.
500 Water Street, J150
Jacksonville, FL 32202

Kathleen M. Barry
Wilmington-Woburn Collaborative
14 Powder House Circle
Wilmington, MA 01887-2741

Linda Raymond
Woburn Neighborhood Association, Inc.
10 North Maple Street
Woburn, MA 01801

James M. Cashwell
David M. Share
Olin Corporation
3855 North Ocoee Street, Suite 200
Cleveland, TN 37312

Martha K. Stevenson
Wilmington Environmental Restoration
Committee
7 Chandler Road
Wilmington, MA 01887

Laura Swain
Commonwealth of Massachusetts Department
of Environmental Protection
One Winter Street
Boston, MA 02108
