In accordance with the Surface Transportation Board's June 13, 2022 Decision in the above-referenced docket, Norfolk Southern Railway Company today is providing the following bi-weekly update on certain trainee information and crew availability.

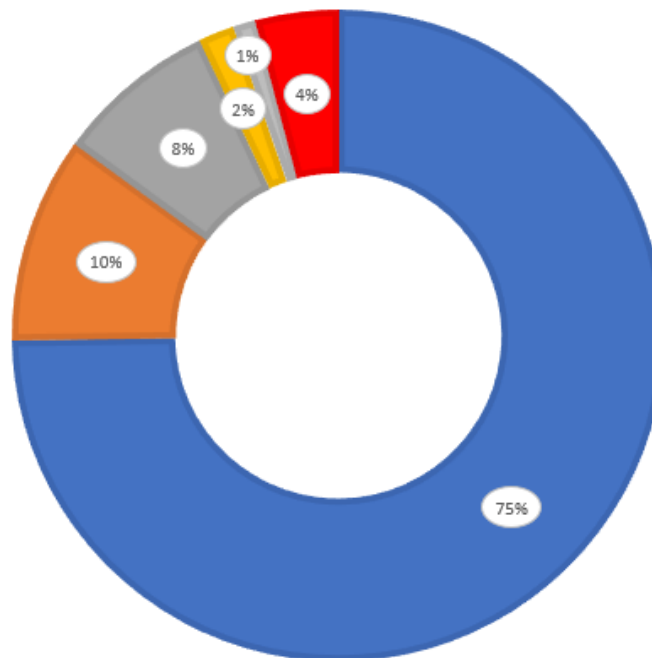

The following table shows conductor trainee information as of August 10, 2022:

Trainees entered training	147
Trainees dropped out of training	53

For the week ending August 5, 2022, Norfolk Southern's data shows that on average 75% of Norfolk Southern's total qualified T&E employees were available to work on a given day. Note however, the "available for work" number includes employees who work local or yard assignments who show as available on their scheduled rest day due to current technology limitations. Those employees are in fact not subject to call, meaning that they are on their scheduled rest day and are not in fact available for work. On average for the week ending August 5, 2022, 7.7 % of those employees showing as "available" were in fact not subject to call, meaning that the average of qualified T&E available for work was in fact just 67.3% of total qualified T&E employees. That number fluctuated depending on the day of week, with Saturday having the lowest availability over the week. The following pie chart illustrates the key drivers of crew availability, which include FRA mandated rest, vacation, illness, and Family Medical Leave act absences, among others.

AVERAGE WEEKLY STATUS (07/29/2022-08/05/2022)

■ Available ■ Rest ■ Vacation ■ FML ■ Other ■ Unexcused

Norfolk Southern will continue to update the Board on its progress toward service recovery on a bi-weekly basis.

Sincerely,

/s/ Hanna M. Chouest
