Re: Urgent Issues in Freight Rail Service—Railroad Reporting
STB Docket No. EP 770 (Sub-No. 1)

Dear Ms. Brown:

Pursuant to the order of the Surface Transportation Board dated May 6, 2022, in the above-captioned proceeding, The Kansas City Southern Railway Company submits its accompanying revised service data reports for Weeks 27 through 32.

Following filing of its report for Week 32 on July 10, KCS became aware that data in Line 160 of its Week 32 report was incorrect. In researching the problem, KCS determined that data in Lines 19 – 24 and Lines 160-166 of the report had not updated correctly. KCS IT staff worked to establish the cause of the problem and to remedy it. Once the remedy was determined and implemented, KCS reviewed reports prior to its Week 32 filing to determine whether they also were affected by the data failure. That research showed that the data problem began on July 7, encompassed in the Week 27 report.

Accordingly, with this letter, KCS is submitting revised versions of its reports for Weeks 27 through 32. The accompanying revised reports provide corrected data in Lines 19 – 24 and 160-166. Other data is unchanged.

If there are any questions concerning this report, please contact the undersigned.

Sincerely,

Stephen Freeland
