Re: Finance Docket No. 36500, Canadian Pacific Railway
Company, et al. -Control - Kansas City Southern, et al.

Dear Ms. Brown:

In accordance with Decision No. 22 in the above-referenced proceeding, The Chlorine Institute ("CI") hereby provides notice of its intent to participate in the September 28-30, 2022 hearings in the above-referenced proceedings. As of now, the undersigned expects to appear by Zoom.

I intend to present argument on three issues: 1) the anti-competitive nature of the Hazardous Materials Tariff of Applicant Canadian Pacific Railway and the deleterious effect that the substitution of that Tariff for the Hazardous Material Tariff of Applicant Kansas City Southern Railway would have on railroad competition for shipments of chlorine; 2) the need for preservation of open and competitive interchanges with non-Applicant railroads; and 3) the need to preserve the right of parties to whom representations and commitments have been made by Applicants, on or off the record, to seek relief from the Board in the event those commitments are not honored.

Seven minutes should be sufficient for CI's affirmative presentation.

Respectfully submitted,

Michael F. McBride
Attorney for The Chlorine Institute
