Dear Mayor Arico,

Before reaching out to CN, can you tell me how far along the city is in the planning stages of the pedestrian bridge - is there a detailed site plan showing bridge clearances? Has a permit been approved?

Thanks,
Diana Wood

Dear Mayor Arico,

Thank you for providing comments and for posing the question as to whether the Illinois Central Railroad Company – Acquisition of a Line of Railroad Between Kansas City, Mo., and Springfield and East St. Louis, Ill. – Kansas City Southern Railway Company (KCS) would affect the planned construction of a pedestrian bridge over the KCS right-of-way in Bowling Green at business highway 61 North. I am in the process of looking at the GIS maps and am also reaching out to CN/ICCR for input, so please stay tuned. Should have an answer for you within the week.

Thanks,
Diana Wood

Subject: Surface Transportation Board

My name is Jim Arico, Mayor of Bowling Green, Missouri 63334. I am submitting a question and a comment. My question is, "The Pike County Commissioners received a CDBG to build a pedestrian walking bridge at the Business Highway 61 North over the current tracks of Kansas City Southern Railway Company. Will your acquisition of the tracks in Bowling Green, Pike County, Missouri affect the construction of this walking bridge in any way?" My comment is, "I am very pleased to see your projection of a 'Proposed Siding' expansion in Bowling Green for our current and future manufacturing, farmers, and ranchers. This provides greater transportation opportunities for east and west delivery and pick-up of consumer goods and products."

Jim Arico, Mayor

Bowling Green, Missouri 63334
