Re: Transdev Group, S.A.
– Acquisition of Control –
First Transit Topco Inc.
Surface Transportation Board Docket MCF 21103

Dear Ms. Brown:

Enclosed for filing in the above referenced docket is the Verified Supplement of Transdev Group, S.A.'s ("Transdev") in response to a request for supplement information from the Office of Proceedings. Also enclosed is a motion for protective order accompanied by public and confidential versions of the Verified Supplement.

Please let me know if you have any questions.

Sincerely,

A handwritten signature in blue ink that reads 'Mark J. Andrews'.

Mark J. Andrews
Counsel to Transdev Group, S.A. et al.

Attorneys for Applicants

Dated: December 6, 2022

Before the
SURFACE TRANSPORTATION BOARD

STB Docket No. MCF 21103

TRANSDEV GROUP, S.A.
– ACQUISITION OF CONTROL –
FIRST TRANSIT TOPCO INC.

VERIFIED SUPPLEMENT TO
APPLICATION UNDER 49 U.S.C. 14303

On November 10, 2022, Transdev Group, S.A. (“Transdev”), a noncarrier, its noncarrier subsidiary Transdev North America, Inc. (“TNA”) and TNA’s passenger motor carrier subsidiary Transdev Services, Inc. (“TSI”), collectively “Applicants”, filed an application under 49 U.S.C. §14303 and the Board’s rules at 49 CFR part 1182 (the “Application”) for Applicants to acquire the voting securities of First Transit Topco Inc. (“Topco”), an intermediate noncarrier parent company of passenger motor carrier First Transit, Inc. (“First Transit”). Subsequent to Applicants’ filing, the Board’s staff informally requested Applicants to supplement the Application. Applicants’ response is contained in confidential and public versions of this filing (the “Supplement”).

Applicants have sought a protective order under expedited consideration in this proceeding to ensure that Applicants can provide all the supplemental information requested by the Board. The confidential portions of the Supplement, Exhibits H and I, are predicated on the Board’s granting of that motion.

This Supplement separately addresses each of the series of questions posed to undersigned counsel by Board staff on December 1. Applicants note at the outset – as they did in the Application at pages 2-4 and note 2 – that most of their passenger transportation operations are exempt from non-safety regulation by the Federal Motor Carrier Safety Administration (“FMCSA”) and therefore are exempt from Board regulation. The Board’s jurisdiction over a transaction between motor passenger carriers is defined in 49 U.S.C. § 14303, which provides the Board with jurisdiction over certain “transactions involving motor carriers of passengers subject to jurisdiction under subchapter I of chapter 135” of Title 49. As discussed here and referenced in the Application, significant portions of the operations of Transdev and First Transit are not subject to jurisdiction under Chapter 135, as further explained next.

The core business of First Transit, the only motor passenger carrier being acquired in the Proposed Acquisition, is the provision of contracted mass transit services on behalf of municipalities and other local government entities. For many cities and political subdivisions, First Transit operates, either with its own vehicles or more frequently with vehicles supplied by the government entity, local urban and suburban transit services conducted in the name of the particular transit agency for which First Transit operates the transit services. Under FMCSA regulations, “transportation performed by the Federal government, a State, or any political subdivision of a State, or an agency established under a compact between States that has been approved by the Congress of the United States” is deemed exempt transportation. 49 CFR 390.3T(f)(2). Much of this transportation also is exempt from federal regulation, including STB jurisdiction, under the commercial zone statutory exemption set forth in Chapter 135 at 49 U.S. C.

§ 13506(b), because the transportation is conducted only within and around central business districts that define the scope of the exempt commercial zone.

Most of the rest of First Transit's business is contract service for educational institutions (e.g., campus shuttles), airports or other institutions. Some of this transportation likewise is exempt from Board regulation under one or more provisions of Chapter 135. See 49 U.S.C. §§ 13506(a)(8) (exempting "transportation of passengers by motor vehicle incidental to transportation by aircraft") and 13506(b) (providing for the commercial zone exemption).

Only a very small percentage of First Transit's business, accounting for less than 1% of its revenues, is attributable to more traditional interstate passenger charter services, which are provided by First Transit in buses it uses primarily for mass transit or other services. That charter service is generally not subject to any regulatory exemption and thus is regulated by the STB under 49 U.S.C. § 13501. It is also provided, however, within a highly competitive environment in which a very large number of motor carriers operate.

The core business of Transdev's three passenger bus affiliates in the United States is largely similar. That is, most of Transdev's revenues are earned from non-federally-regulated mass transit services it provides on behalf of government-owned and operated public transit agencies. Revenues related to motor carriage that are earned from charter and other types of contract services account for the remaining bus operation revenues of Transdev. Those revenues again are modest in relation to the revenues generated from public transit service revenues generated by Transdev under its arrangements with government entities. In most cases, public transit clients own the vehicles operated by Transdev (as noted earlier, this also is true of vehicles operated by First

Transit), and such clients frequently do not allow such vehicles to be used by Applicants for charter services.

As a result, the Proposed Acquisition will have minimal impact with respect to motor passenger transportation that is regulated by the Board. Moreover, even to the extent the Applicants provide regulated transportation services, the Board has noted, “. . . the bus industry is characterized by pervasive competition and low entry barriers.” *Coach USA, Inc., and K-T Contract Services, Inc. — Control And Merger Exemption — Gray Line Tours Of Southern Nevada*, STB Finance Docket No. 33431 (STB served Aug. 29, 2001), slip op. at 2.

That said, Applicants’ specific responses to the Board’s questions are as follows:

1. Top to bottom corporate organization charts for affiliates of both Transdev and First Transit/Topco:

These are attached respectively in Exhibits A and B. Please note that Transdev has three U.S. affiliates holding FMCSA authority as bus carriers; these are TNA and two much smaller subsidiaries referenced at page 4 of the Application. The only First Transit/Topco affiliate with such authority is First Transit itself.

2. Operational profiles for passenger carrier affiliates of Transdev and First Transit:

Responses “a” through “d” below pertain to the current affiliates of Transdev that were referenced in the previous paragraph. These affiliates are TSI and two of its subsidiaries listed on page 4 of the Application.

- a. *States of incorporation for Transdev affiliates:* See Exhibit A.
- b. *Headquarters locations for Transdev affiliates:* Lombard, Illinois.
- c. *Description of Regulated U.S. Operations:* TSI and the two above-referenced subsidiaries perform only a very small amount of charter work in San Marcos, TX,

San Jose, CA and Pittsburgh, PA. This represents less than .0054 percent of Transdev's total U.S. business.

- d. *Profile of U.S. Customers, Terminal Locations, Equipment and Employees:* Please see Exhibit C for a nationwide listing of clients for all contracted and charter services for Transdev affiliates, together with information on equipment and employees by client and state. Exhibit D provides a series of maps showing principal U.S. locations at which those affiliates provide specific types of contracted services.

Responses "e" through "k" below pertain to First Transit, the only STB-regulated affiliate of Topco.

- e. *State of incorporation:* Delaware.
- f. *Headquarters location:* Principal place of business is 600 Vine Street, Suite 1400, Cincinnati, OH 45202.
- g. *Description of U.S. operations:* The bulk of the First Transit operations are local fixed-route transit services operated under contracts on behalf of government entities. Other operations are local bus services provided under contract with universities, airports and other institutions, as well as non-emergency medical services and paratransit services. A very small percentage (less than 1%) of the First Transit operations represents interstate charter services subject to federal operating authority requirements. Please refer to Application for additional information.
- h. *Customer locations:* Please see First Transit fleet report by client, attached as Exhibit E.

- i. *Number of buses, vans and motor coaches by market or state:* The final page of Exhibit E summarizes the equipment fleet by state. Note that First Transit (like Transdev and affiliates) does not own the majority of the listed vehicles, but rather they are owned by its contract clients.
 - j. *Billing Locations (city and state):* Please see Exhibit F.
 - k. *Number of employees by market or state:* Please see First Transit employee listing by state, attached as Exhibit G.
3. Extent of geographic overlap between passenger operations in U.S. by Transdev and First Transit:

As shown in Exhibits C, D and E referenced above, neither Applicant limits its operations to particular U.S. regions. Please note again, however, that the great majority of these customers are served in the contracted transit operations of Applicants which are not regulated by the Board.

4. Size of competitors to Transdev and FT in U.S. passenger markets:

See non-comprehensive list of major government-contracted transit operation competitors below. Like Transdev and First Transit themselves, most of the listed competitors also have substantial non-STB-regulated local transit contract operations on behalf of government entities. *See also* Exhibit H (Kearney report), referenced below, for additional information.

MV Transportation/MTM Transit
Coach USA
Keolis
National Express
Via Transportation
RATP Dev
Parking Company of America
Bus.com

Beacon Mobility
Academy Bus
Easton Coach
Empire Transportation
Transit Team
Via Transportation
Silverado Stages
Southland Transit
Transportation Concepts
River Bend Transit
Badger Bus
Total Transit

Competitors for charter services (the primary focus of STB regulation) are not listed (and are not tracked by Applicants) as they could include virtually any regulated bus operator in the geographic area where the charter services are conducted.

5. A copy of the Kearney report referenced at p. 8 of the Application filed November 10:

This report is being filed under seal as Exhibit H to the confidential version of this Supplement.

6. Likely impacts of the proposed transaction on employment levels, terms and conditions for all employees of Transdev and First Transit, including drivers, maintenance workers and management:

There will be no short-term impact on employment levels. First Transit and Transdev will continue to operate as they did pre-acquisition without any significant changes or impacts to any employees, with the possible exception of a handful of top management personnel. As noted in the Application, there is an acute shortage of qualified drivers for passenger transportation vehicles, and the same is true of vehicle maintenance personnel. Accordingly, Applicants have no plans for any significant workforce level changes.

7. Any changes in fixed charges for Transdev as a result of this transaction:

See Exhibit I being filed under seal as part of the confidential version of this Supplement.

Accordingly, Applicants respectfully request the Board to determine that this Application (as amended by this Supplement) is complete within the meaning of 49 U.S.C. 14303(c), to place only the public version of this Supplement in the public docket, and to publish notice of the Application in the Federal Register on or before December 9, 2022 as per the referenced subsection 14303(c).

Respectfully submitted,
