Adam,

Thank you for reaching out, we greatly appreciate your continued follow up and coordinated efforts in the environmental review of PIRATE line in Mesa. We are working on the petition for our Construction and Operation Exemption; UP anticipates filing early next week to keep the project progressing. If you have any additional questions or concerns, please do not hesitate to contact me. Thank you.

*** PROCEED WITH CAUTION - This email was sent from outside the Company ***

Hello Tanya,

As much of our field work is concluding and we enter the environmental document writing stages of this environmental review, I'd like you to confirm your anticipated filing date for the proposed construction and operation of the PIRATE line in Mesa.

While OEA has been in steady communication with UP throughout this process, and Kevin has been very timely in responding to any information requests provided, the filing marks the beginning of the formal review process before the Board and its other offices. Ideally, the filing would come in early enough that OEA and its third party contractors would have time to review it in detail before preparing the bulk of the environmental document, to reduce the need for revision or rewrite later in the process and avoid any potential delays in the overall review timeline.

Can you please provide us with an update on when UP intends to file with the Board and OEA can expect to review that filing?

Thank you,
