Attn: Docket No. EP 670 (Sub-No. 2)
395 E Street SW
Washington, DC 20423-0001

Subject: Application of Devin Mogler of Green Plains Inc. to serve as a biofuel feedstock growers or providers and biofuel refiners, processors, and distributors representative on the Rail Energy Transportation Advisory Committee (RETAC)

Green Plains Inc. (NASDAQ: GPRE) is a leading biorefining company focused on the development and utilization of fermentation, agricultural and biological technologies in the processing of annually renewable crops into sustainable value-added ingredients. This includes the production of cleaner low-carbon biofuels, renewable feedstocks for advanced biofuels and high-purity alcohols for use in cleaners and disinfectants. Green Plains is an innovative producer of Ultra-High Protein and novel ingredients for animal and aquaculture diets to help satisfy a growing global appetite for sustainable protein. The Company also owns a 48.8% limited partner interest and a 2.0% general partner interest in Green Plains Partners LP, which handles downstream biofuels distribution.

Headquartered in Omaha, Nebraska, we operate 11 ethanol biorefineries across Illinois, Indiana, Iowa, Minnesota, Nebraska and Tennessee, where we produce over 900 million gallons of fuel ethanol each year, making us the fourth largest U.S. producer. Additionally, we produce over 2.5 million tons of distillers grains, and over 250 million pounds of distillers corn oil each year. While almost all of our inbound feedstock arrives by truck, the vast majority of our finished products move by rail.

I have been with Green Plains Inc. for five years, and my current role is SVP Government Relations, Sustainability & Communications. My duties include federal, state, local and international advocacy for our policy priorities, advancement of our sustainability and ESG initiatives, and communication of same to internal and external stakeholders, including investors, customers, employees, lawmakers and regulators. I am a federally registered lobbyist, which does not preclude me from serving on this advisory committee per revised OMB guidance, since I would be doing so in a representative capacity.

Prior to Green Plains, I served as a Legislative Assistant for agricultural policy for Senator Joni K. Ernst (R-IA), as SVP Grain and Agronomy Operations for Farmers Cooperative Company (now Landus) and as a Merchandising Intern for Ag Processing Inc. (AGP). I was raised on a fourth-generation family farm in Lyon County, Iowa, and hold a Bachelor of Science degree in Economics and Agricultural Business from Iowa State University. Each of my professional roles have involved working with railroads, including but not limited to the shipment of corn, soybeans, ethanol, distillers grain, corn oil, soybean meal, soybean oil, anhydrous ammonia, MAP, DAP and potash. In my current capacity, I advocate with the STB and lawmakers for timely service for our company and industry from the Class I carriers.

I would be honored to serve as a member of the RETAC. Thank you for your consideration.
Sincerely,

Devin Mogler
