Subject: [EXTERNAL] [JIRA] (IMOV-8737) RE: Fwd: UPRR Pecos Industrial Rail Access and Train Extension (PIRATE) Preliminary Environmental Consultation

A comment is added on your issue:

Re: RE: Fwd: UPRR Pecos Industrial Rail Access and Train Extension (PIRATE) Preliminary Environmental Consultation

Lynda,

Thanks for your prompt response. This request had been made a high priority because it had initially gone to Juliana. Adam, STB's POC, informed me that because this is a construction project (building a new line) as opposed to an abandonment, the customary 30 days turn-around time frame (NGS received request, Dec 10, 2021) is somewhat flexible.

As soon as you can do your due diligence in determining/identifying the presence of geodetic survey markers in the proposed project area, providing me with a list of those marks is sufficient. Some advisors also provide a map (although not necessary) displaying the location of marks.

Deborah
