

Dear Interested Party:

The Surface Transportation Board's (Board) Office of Environmental Analysis is pleased to announce that the Draft Environmental Impact Statement (Draft EIS) for the proposed acquisition of Kansas City Southern Railway (KCS) by Canadian Pacific Railway (CP) is available for review and comment. The Draft EIS analyzes the potential environmental impacts of the proposed acquisition, including impacts related to expected increases in rail traffic ranging from 8 to approximately 14.4 additional trains per day, on average, on CP and KCS rail lines between Chicago, Illinois and Laredo, Texas. Please click this link <https://cp-kcsmergereis.com/draft-eis.htm> for the Board-sponsored project website, which provides a copy of the Draft EIS, information about ways to comment, and upcoming in-person and online public meetings. You can access a flyer at this link <https://cp-kcsmergereis.com/docs/DEIS-availability-flyer.pdf> that you can use to let your community know about the Draft EIS and ways to comment.

Danielle Gosselin  
Director  
Office of Environmental Analysis  
Surface Transportation Board
