Peter,

I have located the information in the attached AQ appendix from the DEIS. The dwell time is explained on page 53 (K.9.1), and the reference is footnoted on pages 57 and 58, so the same assumption should be used in your response regarding the No-Action alternative and may also apply to the Action alternative unless CN can provide empirical data from its own operations.

Thanks,
Diana

Diana – Did CP-KCS answer the questions in D and E related to “dwell time”? Trying to make sure we use their data if we can find it.

Peter,

Please see the attached information request. Please note that your responses are due by January 13, 2023 as we need to keep the environmental review moving forward.

Happy Holidays!

Thanks,
Diana
