Hi. Thank you for the comments. I don't think that providing a 45 day review period for the Osage Nation will be an issue. That will be fine and allow you sufficient time for your reviews. We have not yet finalized the scope of work with the consultant but the final version will include the items you requested. There have been some delays on the applicant's end in getting this all moving forward. As soon as we have some firmer timeframes from the applicant we will definitely reach out to you. Thanks again and reach out to me at any time with questions or concerns.

Have a great week.

Subject: RE: Port KC (FD 36406) Section 106 Plan for Consulting Party Review
Importance: High

Good Morning Mr. Tabachnick,

Myself and our deputy THPO, Jess Hendrix have reviewed the overall plan for the Section 106 process on the Port of KC (FD 36406) project and have no immediate concerns or comments with the exception that, due to work load, the Osage Nation asks

- that the review period for Step 2: Identification of Historic Properties (Review of the Archaeological Survey Report) in the NHPA Section 106 4-Step Process be extended to a 45-day review period so that we can have ample time to voice our concerns
- that the review period for Step 3: Assessment of Adverse Effects in the NHPA Section 106 4-Step Process be extended to a 45-day review period so that we can have ample time to voice our concerns.

I also seek an update in regards to when the Osage Nation will be receiving a final draft of the Scope

of Work for review and comment.

Thank you,

Deseray Helton

Subject: Port KC (FD 36406) Section 106 Plan for Consulting Party Review

Good afternoon. Please see the attached document which illustrates our overall plan for the Section 106 process on this project. Please contact me with any comments or questions.

Thanks very much.
