Subject: RE: Port KC MRT Rail Project (FD 36406) - Archaeological Survey Scope of Work

Mr. Tabachnick,

USACE has reviewed the CRA proposal and has no objection. Thank you for the opportunity to comment. The staff archaeologist who reviewed the proposal also suggested that he could provide CRA with historic river channel locations, if these would be useful in planning or report preparation.

Respectfully,

Matt Shively

Subject: [Non-DoD Source] Port KC MRT Rail Project (FD 36406) - Archaeological Survey Scope of Work

Attached please find the archaeological scope of work for the proposed Port KC MRT Rail Project, located in Kansas City, Missouri. It was developed in accordance with appropriate state and federal guidelines. Please review this document and let us know any comments or concerns that you may have. It is anticipated that work in the field could start in the last quarter of 2021 so please provide any comments to me prior to October 20th.

If you would like to discuss any of the items in the SOW, let me know and we can set up a meeting. Looking forward to continuing consultation on this important project with everyone.

Thanks very much.

Alan Tabachnick
