Dear sir,

I am writing you today to let my wishes be known as to the final outcome of the very long battle for control of what I have enjoyed in my neighborhood for over 30 years, the Harsimus Branch railway embankment

To imagine the local community, for whatever repurposing is agreed upon, would not be awarded the right to decide on its future would be a shot in the back to the so many preservationists, volunteers and neighbors who have worked very hard to make our city vibrant once again by putting community first. Save the Embankment!

Thank you for all you do

Sincerely,

James Conlin
