Dear: Mr. Tabachnick

I learned this week that the STB is considering authorizing the abandonment of the Harismus Branch without historic preservation conditions.

Such a decision leads potentially even likely to the demolition of the embankment. It certainly breaks up a century and a half old transportation corridor that is important of our city future. The public has no information about this matter unless the happen to subscribe to an Embankment coalition newsletter, and even then they would not be aware of the imminence or quality of this decision.

I understand your agency waa supposed to have informed and engaged the public in this process at its earliest stages and that is now in a late stage of review without having done so. Please correct this situation as soon as possible.

I would appreciate your posting this email as an Environmental Comment, as I am not familiar with your system.

Sincerely,

Susan Flores
