Mr. Tabachnick,

I learned that the STB is considering the abandonment of the Harsimus Branch without historic preservation conditions which likely will lead to the demolition of the Embankment. The public has not been informed of this decision or what it entails. I understand your agency was supposed to have informed and engaged the public in this process at its earliest stages, and that it is now in a late stage of review without having done so.

I live right by the embankment and any changes to it without citizens' awareness and consent is unacceptable.

Please correct this situation as soon as possible. I would appreciate your posting this email as an Environmental Comment as I'm not familiar with your system.

Best,
Claire Suh
