Re: Townline Rail Terminal, LLC - Docket Number: FD 36575

August 14, 2023

Dear Chairman Oberman,

Townline Association is assisting residents with the public comment process. Attached are letters/signatures to be included for your consideration. In accordance with 49 C.F.R. § 1104.12, I have cc'd the parties of record on this correspondence.

Respectfully Submitted,

Linda Henninger

RE: Surface Transportation Board Decision, **DOCKETNUMBERFD36575**

Dear Honorable Oberman,

I hope this letter finds you well. I am writing to express my deep concern and strong opposition to the proposed establishment of the private diesel-powered freight yard by CarlsonCorp in our community. As a concerned resident and advocate for environmental sustainability, I believe this proposal poses significant risks and has the potential to inflict irreversible harm on both our environment and the health and well-being of our community members.

Impact on Property Values, Health, and Well-Being:

The establishment of a freight yard in close proximity to residential areas would likely result in a decrease in property values for homeowners. Prospective buyers and investors may be discouraged from considering properties in the vicinity of the freight yard due to concerns about increased traffic of trucks, pollution, noise, and other associated issues. This could have a long-lasting negative impact on our community's economy and the financial well-being of its residents.

Our community's health, environment, and well-being should be paramount in any decision-making process.

I trust that you will take these concerns into consideration and act in the best interest of our community. I look forward to hearing about any revisions or alternative plans that prioritize the well-being of our environment and residents.

Thank you for your attention to this important matter.

Sincerely,
Elaine Sefcik.

The Honorable Martin J. Oberman, Chairman
 Surface Transportation Board, 395 E Street, S.W.
 Washington, D.C. 20423
 Re: Townline Rail Terminal, LLC - Docket Number: FD 36575

Dear Chairman Oberman,

Townline Rail Terminal is seeking to construct and operate a private freight yard at 140 Old Northport Road, Kings Park on the Port Jefferson line. The plan shows the prospect of five tracks totaling 9,400 feet, two buildings totaling at least 100,000 square feet, and a 161-freight car capacity totaling 10,456 feet of train. It would be a chain link fence away from established residential neighborhoods. The Port Jeff line passes within yards of our schools (Commack, Elwood, Kings Park, Harborfields, Northport, Fort Salonga, East Northport, Huntington), houses, businesses and our local roads. This regional freight yard is unnecessary and only serves to financially benefit the petitioner, while harming our communities. I respectfully request this petition be denied.
