**RE: Docket No. NOR 42178, Navajo Transitional Energy Company, LLC – Ex Parte Petition for
Emergency Service Order**

Dear Ms. Brown,

BNSF respectfully submits the attached data for the week ending August 16, 2023 in accordance with the Board's June 23, 2023 decision in the above-referenced proceeding.

BNSF provides the following information to the Board related to BNSF's service.

Reporting Period

As indicated in previous reports, BNSF defines a week as running from each Thursday to Wednesday of the following week. For this report, the backward-looking data includes traffic moving between Thursday, August 9, 2023, and Wednesday, August 16, 2023 and the forward-looking data includes traffic expected to move between Thursday, August 17, 2023, and Wednesday, August 23, 2023.

Factors Impacting Capacity and Cycle Times

As noted last week, the various factors that have impacted BNSF export coal train cycle times over the last few months have resolved and cycle times continue to improve. BNSF will continue to monitor factors impacting capacity and cycle times and apprise the Board of any new impacts should they arise.

Last week BNSF projected nine (9) NTEC export coal trains leaving Spring Creek Mine between August 3, 2023 and August 9, 2023; BNSF's actual traffic level for this period was nine (9) NTEC export coal trains.

Sincerely,
