Subject: [EXTERNAL] RE: Question about an existing RCA

Hi Pamela,

Yes, because the report is not yet finalized, you can continue work under this RCA/accession number as long as all of the work is included in a single, final report. Please note that the report will need to include the complete survey history and associated dates. Also include in the revised submission email that there was additional survey incorporated into the already-revised draft report, as approved by ASM during correspondence on 2023-09-01 (this will make things easier from the record-keeping end of things!).

Have a great weekend!

Thanks,
 Shannon

NOTICE TO SISTER INSTITUTIONS, RESEARCHERS, AND STUDENTS: We are preparing for major infrastructure upgrades to our 100-year-old north building to occur over the course of the next few years. The disruptions will, at different times, either impede or completely prevent our ability to provide access to the collections (loan requests, research requests, tour requests). We welcome your inquiries and will happily consider each one on a case-by-case basis, but please be advised that we may not be as accessible as we would like to be. We apologize in advance for any denials we may have to issue. Many thanks for your understanding. (This notice does not apply to **Archaeological Records Office appointments**, which will still be available during this time.)

Subject: [EXT]Question about an existing RCA

External Email

Hi Shannon,

We recently conducted an addendum survey for one site [Redacted] on our UPRR PIRATE project. It was on private land but we got an RCA so that we could use the site number. The accession number is [Redacted]. The report

was already submitted to ASM and we have received comments. However, due to some changing circumstances in visibility at that site, we are going to have to take another look at it. Can we do that under the existing RCA/accession number since it's the same site or would we need a new one?

Thank you!
