Hi Elizabeth,

Here is USFWS's concurrence (email) for our consultation re-initiation on the Missouri projects. This concludes your obligations under ESA Section 7 and gives coverage for the northern long-eared bat as an endangered species. Let me know if you have any questions.

Thanks,

dave

David Johnson

Dear Mr. Johnson,

The U.S. Fish and Wildlife Service (Service) has reviewed the information you provided regarding the proposed Canadian Pacific Railway Limited, et al. Kansas City Southern Railway, et al. in Missouri. The Service offers the following comments pursuant to the Endangered Species Act of 1973, as amended (16 U.S.C. 1531-1544).

You requested the Service's concurrence with a "may affect, but not likely to adversely affect" (MANLAA) determination for northern long-eared bat because of the up-listing to endangered for NLEB. The Service concurs with your not likely to adversely affect determination for northern long-eared bat.

Thank you for your interest in the conservation of threatened and endangered species.

Hi Mr. Weber,

The Surface Transportation Board's Office of Environmental Analysis (OEA) is re-initiating consultation for the above referenced project to address the reclassification of the northern long-eared bat (as endangered). In coordination with OEA as their third-party contractor, we have prepared the consultation re-initiation letter (attached). Please let me know if you have any questions.

Thanks!

dave
