Pursuant to the Board’s June 23, 2023 Decision and Order (“Decision”), Navajo Transitional Energy Company, LLC (“NTEC”) hereby submits the following report:

1. Through Thursday, October 12, 2023, BNSF has originated a total of ten (10) Spring Creek export trains for NTEC so far during the month of October. The total, year-to-date volume of Spring Creek coal that BNSF has originated for NTEC on a common-carrier basis (through October 12, 2023) has been 3,080,639 short tons, *i.e.*, a total of 200 trains.

2. Given the recent increase in the service level that BNSF has provided and/or has stated that it will be able to provide with its own resources, additional trainsets from third parties do not presently appear to be needed.

Respectfully submitted,
