(GENERAL OVERSIGHT)**

CPKC’S NOVEMBER 15, 2023 DATA SUBMISSION

In accord with Oversight Decision No. 1 served on September 1, 2023, Canadian Pacific
Kansas City Limited (“CPKC”), on behalf of its U.S. rail carrier subsidiaries,¹ provides this data
submission for the month of October 2023.

307487
ENTERED
Office of Proceedings
November 15, 2023
Part of
Public Record

I. INTERCHANGE DATA

CPKC is submitting interchange data for the month of October 2023 in File
“STB_FD_36500_6_GATEWAY_HC_2023_11_202311090837.csv.” CPKC has designated
that file as Highly Confidential in its entirety.

CPKC is separately filing a public file containing aggregate interchange data for each of
the specified gateways. That file is named
“STB_FD_36500_6_GATEWAY_PUBLIC_2023_11_202311090836.csv.”

II. CUSTOMER EXPERIENCE DATA

CPKC is submitting data on the customer service metrics not already reported by CPKC
in dockets Ex Parte No. 724 and Ex Parte No. 770 for the Reporting Weeks ending during
October in File “STB_FD_36500_6_CUSTOMER_2023_10_202310311509.csv.”

¹ CPKC’s U.S. rail carrier subsidiaries include Soo Line Railroad Company; Central Maine & Quebec Railway US Inc.; Dakota, Minnesota & Eastern Railroad Corporation; Delaware & Hudson Railway Company, Inc. (collectively “CP” or “CP/Soo”); The Kansas City Southern Railway Company, Gateway Eastern Railway Company, and The Texas Mexican Railway Company (collectively, “KCSR”).

A. Metra Delay Data

Table 1 below summarizes the Metra on-time performance data for the full months of September and October, consistent with how Metra reports its on-time performance data publicly. As noted below, Metra has not yet released its September or October On-Time Performance Reports. In a future submission, CPKC will explain any differences between the Metra delays attributed to CPKC freight trains as reported by CPKC with the freight train interference delays that Metra reports publicly.²

TABLE 1

Metra Line	Period	Metra Delays Attributed to CPKC Freight Train Interference	Total Metra Trains Scheduled	Percentage of Metra Trains with Delays Attributed to CPKC Freight Train Interference	Difference, if Any, from Total FTI Figures in Metra's Public On-Time Performance Reports
MD-N Line					
MD-N	Sept. 2023	1	1,358	0.07%	Metra has not yet released its September 2023 On-Time Performance Report.
MD-N	Oct. 2023	3	1,316	0.23%	Metra has not yet released its October 2023 On-Time Performance Report.
MD-W Line					
MD-W	Sept. 2023	1	1,250	0.08%	Metra has not yet released its September 2023 On-Time Performance Report.
MD-N	Oct. 2023	3	1,330	0.23%	Metra has not yet released its October 2023 On-Time Performance Report.

² Metra's public On-Time Performance reporting provides aggregate figures that include all delays caused by "foreign" freight train interference, and thus does not distinguish between freight train interference caused by CPKC trains and that caused by trains of other freight railroads operating over, or crossing, Metra's lines.

B. Service Action Plan Metric Benchmarks

As set forth in Decision No. 35 (at 141-42), CPKC committed to develop Service Action Plans in the event specified thresholds are triggered by trends in three customer experience metrics: Manifest Carloads On Time (based on EP 770 Item 7(i)), First/Mile/Last Mile (Industry Spot and Pull) (based on EP 770 Item 5), and Bulk Train On Time (based on EP 770 Item 7(i)). *See Applicants' Final Brief, Appendix A, p. A9.*

Table 2 on the next page reports the values reported pursuant to Ex Parte No. 770 (Sub-No.1) (or, in the case of the bulk train OTP, the aggregate of the reported metrics) for the Reporting Weeks ending during the month of October. The Table also reports the four-week rolling average figures that are used to assess trends in performance relative to the applicable benchmarks.

TABLE 2

**CUSTOMER EXPERIENCE DATA REPORTING
SERVICE ACTION PLAN METRICS**

Week Ending	Manifest On-Time Performance EP 770 (Sub-No. 1), Item 7(i)				Bulk On-Time Performance EP 770 (Sub-No. 1), Item 7(i)				First-Mile/Last-Mile EP 770 (Sub-No. 1), Item 5			
	CP		KCS		CP		KCS		CP		KCS	
	As Reported in Ex Parte No. 770	Four- Week Rolling Average	As Reported in Ex Parte No. 770	Four- Week Rolling Average	Aggregate of Figures Reported in Ex Parte No. 770	Four- Week Rolling Average	Aggregate of Figures Reported in Ex Parte No. 770	Four- Week Rolling Average	As Reported in Ex Parte No. 770	Four- Week Rolling Average	As Reported in Ex Parte No. 770	Four- Week Rolling Average
10/6/23	62.65%	64.78%	72.99%	71.45%	82.70%	89.15%	92.45%	91.88%	93.75%	93.19%	89.90%	94.10%
10/13/23	64.95%	64.94%	71.48%	71.85%	96.30%	90.59%	95.44%	92.12%	89.38%	92.53%	93.80%	93.80%
10/20/23	65.33%	64.72%	75.80%	72.95%	91.40%	91.25%	91.54%	92.11%	92.63%	92.25%	95.40%	93.80%
10/27/23	70.68%	65.94%	76.09%	74.17%	96.20%	92.03%	95.04%	93.49%	96.25%	93.00%	95.30%	94.40%

III. OPERATIONAL DATA

CPKC is submitting data on the operational metrics for the Reporting Weeks ending during October in File “STB_FD_6_OPERATIONAL_2023_10_202311081125.csv” (the “Operational Data File”).

A. Data for October Reporting Period

The Operational Data File provides weekly data for the Saturday-to-Friday weeks for the period between September 30, 2023 and October 27, 2023.

B. Status of Capital Projects on CP Marquette Subdivision

This information is provided in Table 3 below.

TABLE 3
STATUS OF MARQUETTE SUBDIVISION CAPITAL PROJECTS AS OF NOVEMBER 15, 2023

LOCATION	PROJECT	STATUS
MP 24 to MP100 (Marquette)	72 Miles of CTC Signaling	For segment between MP 46 and MP 72, construction in progress, for target in-service date of November 28, 2023. For segments between MP 24 and MP 46 and between MP 72 and MP 100 (Marquette), design in progress, with construction planned to begin in 2024, for target in-service date of October 2024.
Brownsville (MP 155)	New 10,200-foot siding	Design has been completed; construction planned to begin in 2026, but could be accelerated if volumes increase faster than anticipated.
Turkey River (MP71)	New 12,200-foot siding	Design in progress; construction planned to begin in 2024, for target in-service date in Q2 2025.
Bellevue (MP24)	New 10,200-foot siding	Construction in progress, with completion anticipated by the end of 2023; track and signal work planned for Q1-Q2 2024, for target in-service date in Q2 2024.

Respectfully submitted,

David L. Meyer
