Subject: RE: [EXTERNAL] PIRATE Question

Hi Caroline,

Good afternoon—yes, lots of moving parts. Here is a summary.

In a nutshell, we are not doing 24-hour monitoring, but have had a continuous day presence over the past two weeks. There is a hiatus so far this week while fencing is getting scheduled, but we will have someone going out to take a look tomorrow. There is also a security detail now in place (see below).

- We started monitoring the demob of Power equipment in the wye on 8/10/23. It was completed on 8/18/23.
- We set flags for the placement of signs on 8/14/23 and signs were placed on existing fences in the wye area on 8/14/23.
- Following Blue Stake utility notifications, we did night monitoring of sign placement on 8/15/23, with that work continuing through 8/17/23.
- UP brought in a survey contractor (Otak) to survey their property boundaries. That work began on 8/15/23.
- UP brought in a security patrol (Garda World) to patrol their property on 8/17/23. That is happening Mondays-Fridays/7am-3pm.
- Fencing is beginning on 8/25/23 and will be monitored.
- Demob of the property where the water tank is in site 152 has not been scheduled. It will be monitored. UP is in communication with that property owner.
- The schedule for blocking the access road along the south side of Phoenix-Mesa Gateway is not quite firm. I think they will do that on 8/25/23, with their fencing crew.

Please let us know if you have any questions.

Thanks,
g

Subject: [EXTERNAL] PIRATE Question

Hi Glenna,

I tried reaching out to Kris, but she is OOO. I know that Jacobs began monitoring on August 10. Was that monitoring 24-hour monitoring, or just for the demobilization? We are pretty sure that 24-hour monitoring is occurring, can you let me know when that started?

Thank you!

Caroline Klebacha, M.A.
