Good afternoon Adam, thanks for the note.

For the fence maintenance, we are reviewing our notes and the process with our contractor and get back to you early next week with further details.

In terms of the daily security patrols, those ended on 9/29/2023.

Thanks,

Kevin Rice, PE

*** PROCEED WITH CAUTION - This email was sent from outside the Company ***

Good afternoon UP team,

Can you please clarify whether your daily security patrols of the UP ROW have stopped, and if so, when? If they have stopped, OEA requests that UP begin weekly inspections of the **project right-of-way** to confirm that the site protection measures are still in place and no additional disturbances have occurred. OEA specifically requests the following:

- Weekly in-person inspections of the main line and PIRATE ROW, using a consistent approach (consistent personnel, inspection process, and reporting format).
- Weekly email summaries to OEA that indicate the date and time of the inspection, who conducted it, details on the condition of the construction fencing and signs, and whether any new disturbances were noted.
- Monthly, provide photos of the priority (site) areas to OEA via email.

Please let us know if you have any questions regarding this request.

Thank you,

Adam Assenza
