Alex,

It looks like Chris did process the digital you sent earlier for review. In future please send physical copies of all submissions to our office to avoid confusion or potential review delays.

Best,

Amanda Burke, MFA

Good Afternoon, Ms. Burke,

We also sent the request to the SHPO and communicated with Chris Tellman regarding the Section 106 Project Initiation Form (email thread attached). Perhaps we've duplicated requests here. If so, my apologies. Chris indicated that the digital submission has been accepted; however, if the preference is for us to go ahead with a mailed hard copy to the address on the Section 106 form, we're happy to do so. Please let us know so that we can ensure the process is initiated.

Thank you for your response and your time.

Good afternoon,

Based on the information in your email below and the attachment it appears that you would like to initiate review by our office under Section 106 of the National Historic Preservation Act. At this time our review process is paper based. In order to initiate the review process, please complete the Section 106 Project Information Form found at <https://mostateparks.com/sites/mostateparks/files/780-1027-f.pdf>. Be sure to include all of the item in the check list on the second page of the form as attachments. Then print out the information and mail it to the address on the form. Once we receive a physical copy of your submission we will be able to review and comment on your project. Please let me know if you have any questions or concerns.

Best,

Amanda Burke, MFA

Subject: Docket No. FD 36406, Port Authority of Kansas City - Request for Information and Comment

Greetings,

On behalf of the Surface Transportation Board's (STB) Office of Environmental Analysis (OEA), I am writing you to request your review of the attached documentation relating to an application by the Port Authority of Kansas City (Port KC) to construct and operate approximately 1.7 miles of new rail line (proposed rail line). The proposed rail line would connect the Missouri River and the Missouri River Terminal (MRT) to an interchange point with the Kansas City Terminal Railway Company (KCT) in Kansas City, Missouri. Following your review, please provide information from your agency on resources that could be affected by the proposed rail line, as well as any related permits and/or approvals.

The attached letter begins the process by which OEA will assess the potential environmental and cultural

effects of the proposed rail line. Currently, the consultation period is 30 days and thus we kindly request your response by May 24, 2021.

Should you have any questions, please contact myself or OEA's Project Manager, Adam Assenza (Adam.Assenza@stb.gov).

Regards,

Alex

Project Manager, ICF, third-party consultant for OEA.
