Re: The Maryland and Delaware Railroad Company - Modified Certificate of Public Convenience and Necessity- STB Docket No. FD 29830

Dear Ms. Brown,

We are writing about STB docket number FD29830 the notice of Maryland and Delaware Railroad Company of partial termination of modified certificate of public convenience and necessity.

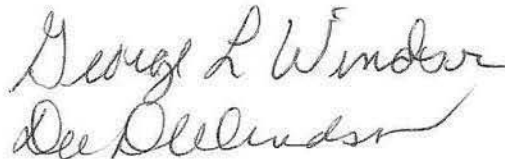

We currently own land that is located in the segments between Linkwood, Maryland and Cambridge, Maryland. Since the Maryland and Delaware Railroad Company is requesting a partial termination of this particular railroad, referred to as "The Cambridge Secondary, inactive section", it would then make the railroad abandoned and allowing all rights of way, easements, etc. to return to the land owner.

Therefore, we are now requesting that all rights of way, easements, and any access to the railroad, that is attached to our property will also be terminated and cannot be transferred or designated to another company, business, government or other entity.

We would appreciate your response as quickly as possible.

Thank you for your time regarding this matter,
Sincerely,

George and Dee Windsor
