Ok, hold what you have at this point. We will defer the vote on Thursday to allow time for the commissioners to review the riders and ask questions.

Good Afternoon Adam,

I have another updated on the PPHTD Rail Extension Project. As previously reported, the Port remains interested in completing this project and does intend to restart the STB review process as soon as possible.

Infinity's agreement with PPHTD/Sustainability Partners for the completion of the project design is up for Board Approval on Thursday, June 13. We plan to finalize discussions with Venable and FNI to get them under contract shortly after that. I believe that we should be back in touch regarding the restarting of the STB process no later than the end of June.

Please let me know if you have any additional questions or need any additional information at this time.

Thanks,

Cindy Gallo, P.E.
 Project Delivery Manager

Good Afternoon Adam,

I wanted to touch base with you regarding the STB Review Process for the PPHTD Rail Extension Project. The Port remains interested in completing this project and does intend to restart the STB review process as soon as possible.

Infinity is in the final stages of getting under contract with PPHTD/Sustainability Partners for the completion of the project design. We've also continued to be engaged in discussions with both Venable and FNI to get them under contract. Once all agreements are signed, we'll be back in touch with an anticipated timeline for the field investigations. Please let me know if you have any additional questions or need any additional information at this time.

We're looking forward to working with you and getting this project kicked off again.

Thanks,

Cindy Gallo, P.E.
