Re: Flint Hill Resources Railroad, LLC - Construction and Operation
Exemption – Hardin County, Iowa, FD 36439

Status Report

Dear Ms. Brown:

On February 1, 2021, Flint Hill Resources Railroad, LLC (“FHRR”) petitioned the Board for authorization to construct and operate an approximately 2.3-mile rail line (the “Line”) in Hardin County, Iowa. Shortly thereafter, POET, the world’s largest producer of biofuels, acquired via stock purchase all the bioethanol assets of Flint Hills Resources, including FHRR and the Flint Hill Resources Iowa Falls, LLC plant the railroad was seeking construction authority to serve. Per stamp decisions served on July 9, 2021, September 30, 2021, February 18, 2022, July 6, 2022, and July 11, 2023, the Board granted four requests by POET to hold the proceeding in abeyance, while POET explored its competitive transportation options and evaluated the project and its alignment with POET’s long-term objectives. POET is writing to update the Board on the status of its efforts.

POET continues to have discussions with Union Pacific Railroad Company (“UP”) aimed at reaching an appropriate commercial solution. To date, these negotiations have culminated in a short-term commercial solution that has satisfied POET’s immediate needs. POET has agreed to postpone its build-out while the parties continue negotiations. POET and UP are slated to continue further negotiations during Quarter 4 of 2024 and Quarter 1 of 2025.

POET appreciates the Board’s strong preference that parties make every effort to reach a commercial solution whenever possible, and POET is trying to do exactly that here but needs to

keep the abeyance in place to allow for the completion of that process. The Board plays an important role in fostering and encouraging the reaching of appropriate commercial solutions by the railroads and their shippers.

Given that POET has already committed substantial monies (over \$100,000.00) to the project and is yet to have an adequate long-term solution in place, POET respectfully requests that the Board afford it the time necessary to explore all options before proceeding with the build-out.¹ Accordingly, POET respectfully requests that the Board hold the proceeding in abeyance for another year. While it is unclear whether things will be fully resolved by then, POET agrees to submit a status report on where things stand on June 30, 2025.
